

Copper Ridge Offers Property In Texas Hill Country For Building A Dream Home

September 24, 2015

September 24, 2015 -
Copper Ridge, a large acreage, Hill Country community in New Braunfels, TX, is proud to announce they have a number of new acreage lots for sale, primed for a new dream home. Copper Ridge is proving to be an incredibly popular location, mainly due to its beautiful ridge-top, panoramic views. Some 300 families have already purchased lots here and many homes have now been completed. The remaining homesites are selling very quickly, so interested parties are encouraged to check it out soon.

"We want to encourage everybody to contact us for further information on our new ridge-top acreage homesites," says Todd Menger, the Project Manager at Copper Ridge. "In addition, they can visit our website at www.CopperRidgeTX.com, where they can see a gallery of photographs of completed homes and homes currently under construction. These images give a real feel for how beautiful it is in this area of the Hill Country."

Prospective buyers are encouraged to speak with an experienced and knowledgeable land consultant, and to schedule a tour of the area. Furthermore, it?s recommended that veterans and active military personnel in particular contact them. This is because special financing deals are available to them through the Texas

Veteran Land Board. The home of their dreams, in other words, is one step closer to becoming a reality.

The New Braunfels area of Texas is becoming increasingly popular, particularly with families, because it offers a range of different activities and other things to do for every member of the family, including the famous Schlitterbahn Waterpark Resort. Additionally, it is home to some amazing natural and historical sites. In fact, New Braunfels is home to the oldest bakery in Texas, which is still open to this day.

"New Braunfels is a place that people almost instantly start to call home," adds Mr. Menger. "It is so welcoming and so beautiful that people simply find this is where their heart is at the end of the day. Because new properties are available now, as well as land on which a new home can be built, the community is ready to expand and they are happy to welcome new residents."

Copper Ridge has an extensive website that shows details about the available lots of land and more. It also has easy to use contact forms available for those who are interested in taking the next step.
