

Kansas City Roofers Or Roofing Company Completes Office Renovation

July 31, 2017

July 31, 2017 - PRESSADVANTAGE -

Armor Roofing LLC, based in Kansas City, MO, has announced that they have completed a redesign of their office. The redesign was needed because the office, which opened 23 years ago, already required some changes to make it more modern and up-to-date. People are encouraged to visit the new office to see how it has been renovated and to meet the team.

Shawn Obermann from Armor Roofing LLC says: "In the past 23 years, we have achieved a lot of things. We've opened offices in Neosho, Olathe, and Springfield, for example. We have also been named the premier roofing company in Kansas City, and much more. In all of that, we simply didn't have the time to think about cosmetic issues, such as what our office looked like. But now that we have taken that time, we are so happy that we did. Everything now looks fresh and modern, and it is just a pleasure to come to work."

Armor Roofing is a popular roofing company that has been active in their Kansas City location for many years. They have become the go-to source for roofing needs, including emergency repairs. They have also compiled a free to download report entitled 'The 6 Crucial Things You Should Know Before Roofing Your House Instantly', and a variety of other informative pieces designed to increase the knowledge of their clients.

The company has set itself apart as the best of its kind, which is clearly visible in their many positive reviews. Auyanna B. says on their Google Maps page, for instance: "Wonderful and very beautiful work. These guys deserve so much more recognition than what they get. 32 years in the field. You really can't beat that. Let alone find a company standing alone that long. You guys are amazing."

People are encouraged to contact the company for a free estimate. As before, this can be done online through live chat, or by simply giving Armor Roofing a call. Shawn Obermann also recommends that people visit the new office. He says: "Come see us 6600 NW Tower Dr #104 and let us know how you like our new look."
