Traverse City Roofing Has 20 5 Star Reviews

December 15, 2020

December 15, 2020 -
Traverse City Roofing, a roofing repair and installation contractor based in Traverse City, MI, is excited to announce that they now have a total of 20 five-star reviews. What makes them even more excited is that they have a perfect overall rating of 5.0, which means that all of the reviews they have received so far on Google are all five-star reviews. They also hasten to add that they will continue to provide roofing services and repair even when the snow starts. Thus, homeowners in Traverse City and neighboring areas who think they possibly need to have their roof repaired may want to ask for a free no-obligation estimate or schedule a free no-pressure consultation. Those who want to know more can check out this tweet.

These highly positive reviews they have been receiving have resulted in an upsurge in the number of people who have been inquiring about their roofing services. It appears that their popularity has recently grown significantly because some of the inquiries were even from out of state.

James Thomas from Traverse City Roofing says, ?It does not matter if you are a commercial or a residential customer. Our roofing services are affordable and high quality. Whether you are wanting to improve the structure of your home or the aesthetics, we can give you the desired outcome. Traverse City Roofing can handle all your roofing needs, from a simple tear off and re-shingle job to a brand new custom metal roof.?

There are several factors that make Traverse City stand out among other roofing service providers. These include their well-experienced roofing technicians; professional and accommodating staff; free no-obligation estimates; the fact that it is locally owned and operated, which means that they are familiar with the area and will not likely go away; and their transparent pricing with no unexpected additional fees. They serve Northern Michigan, which includes Traverse City, Kingsley, Grand Traverse County, Williamsburg, Interlochen, Lake Leelanau, Glen Arbor, Leelanau County, Northport, Empire, Suttons Bay, Bellaire, Elk Rapids, Antrim County, East Port, Central Lake, Torch Lake, and more. Those who would like to know more about the company can check their online profile.

Traverse City Roofing can provide all kinds of new roof installation for residential buildings. Thus, homeowners whose roofs are beginning to age or have observed a leak in some spots may want to have their roof checked since there is a significant possibility that the roof may already need replacement. Homeowners may choose from a number of roofing materials, such as asphalt, tile, decra, shake, and rubber. They may also want to discuss this with the roofing professionals from Traverse City Roofing.

They want to point out that roof replacement doesn?t usually require a long time to complete. Some believe this may take days or even weeks but in reality, regular-sized homes will only need a day or less to have the roof replaced. It is only when the house is huge and there are many challenging peaks and valleys that roof replacement may need more time to finish.

For commercial buildings, they want to point out that metal is one of the most preferred roofing materials for buildings with flat roofs. This is mainly due to the durability of the metal. Aluminum is often a great choice when having the roof of a commercial building replaced, particularly when the goal is to ensure the roof?s longevity. Ideally, flat metal roofs can last for 35 years or even more, if provided with proper maintenance. Furthermore, metal roofs reflect the heat of the sun, resulting in lower energy costs for the building.

It must also be noted, however, that metal roofs also have some disadvantages, including their tendency to rust and the fact that they need to be totally torn out when there is a need to install a new roof. Building owners have other options, such as EPDM or rubber, which is relatively lightweight but resistant to tears and scuffs.

Businesses and homeowners in need of roofing services in Traverse City and neighboring areas may want to visit the TraverseCityRoofing.net website or contact them via telephone or through email. They are open to provide services from 7:00 am to 6:00 pm, from Monday to Friday, and from 9:00 am to 3:00 pm on Saturdays. Those who want to know more about Traverse City Roofing may also check out their previous press release.
