Reputable Roofing Winston Salem Company Happy to Share Yet Another Favorable Review

December 30, 2020

December 30, 2020 -
Grace Roofing and Construction LLC is pleased to announce that they have received yet another glowing review from a satisfied customer. This contractor that?s known for offering quality roofing work in Winston Salem and the surrounding areas likes to share these reviews because they directly reflect the dedicated way that the company goes about completing their roofing projects. It?s also a big source of pride for everyone that works for the company.

In the above-mentioned review, Winston-Salem customer Carroll Emilie, wrote, ?This company has a reputation for excellent, efficient, and timely service and I can now certainly attest to that. Richard was courteous, pleasant & professional. I won't call anyone else for roofing work again. Thank you for providing such great service.? This review and other similar Winston Salem roofing reviews can be seen on the company?s Google Maps Business Listing. On that listing, the company averages an impressive 4.9 out of a possible 5-stars on the 50 reviews that are displayed there.

Richard Sakowski, the owner of Grace Roofing and Construction LLC, says, ?We pride ourselves on always providing the best customer experience possible. Our company does that by doing such things as communicating often and transparently with each customer. That way we can make sure we address any concerns before any roofing job starts and also answer any questions in detail that come up as the job progresses. We are also that rare roofing contractor that documents each roof installation that we do with photos. Once a roof installation job is finished, we then turn those photos into a pdf file for each homeowner so they can view every step of their recently completed roof removal and installation process. This proves even the little aspects of every roofing job that we do are important to us and that?s why we feel our roofing services are consistently rated very highly.?

The company owner went on to say that although the review that was highlighted above was based on a total roof replacement project, they also offer several other commercial and residential roof repair services. He

stated that this includes leak detection and resolution services and applying new flat roof coatings on business roofs. Sakowski added that their 15-year old roof repair Winston Salem business offers free quotes, never uses subcontractors, and does not consider any roofing work completed unless that yard has been meticulously cleaned up.

One other service that Sakowski says his company is happy to provide their customers with is their 24/7, 365 emergency roofing assistance. They offer this service to those in Winston Salem, High Point, and Greensboro who have had a storm or other incident leave their roof needing immediate attention. The company owner added that once they get a call for emergency roofing help, they will dispatch a crew to the customer?s location just as soon as it?s safe to venture out. Once there, the crew leader will assess the situation and determine whether the roof can be repaired right away or materials need to be ordered to do a proper repair. He says that if a roof repair cannot be immediately performed, the crew will take steps to make the damaged roof as watertight as possible and the job will be scheduled for a quick completion once the supplies arrive. Sakowski mentioned that they will even use their many years of experience in the roofing business to help their customer with any insurance claims which are related to the recent damage.

This is another highly rated service that the company offers. Here is a recent review that can attest to that. Anders Hagarty, stated, ?Had water coming in through our bathroom ceiling. One call to Grace Roofing and Construction relieved my worries. They came and checked the problem and suggested ways to fix it. Excellent service and they are great at keeping in touch. Performed everything they said they would. The information I received satisfied all my concerns. Great job!?

Sakowski says that for those in North Carolina?s Piedmont Triad area that want more information on their roofing company Winston Salem services, they can call them, send them an email, or can fill out the ?To Schedule A Free Quote? form that?s found on the bottom of their website?s homepage.
