

Vi-Tae Releases More Than Clean Blackhead Remover To The Public

June 24, 2015

June 24, 2015 - PRESSADVANTAGE -

Elizabeth Robinson, who is the spokesperson for the company Vi-Tae, Inc., has announced that their product, More Than Clean, has now been released to the public through Amazon. More Than Clean is a blackhead remover that is available in a 4.46 floating ounce bottle. Elizabeth added that they are offering a limited time discount of 50% off the retail price of More Than Clean. To get the discount, customers need to visit Vi-Tae.com, and once they arrive on the website, simply need to click the "CONTACT US" link at the top of the page. They will be directed to an email submission form. After filling out all the contact details, customers must also add the word "More Than Clean" into the message box and click send.

Vi-Tae stated that More Than Clean helps to get rid of blackheads without using any type of chemicals or surgical tools. The product contains sea kelp extract and red algae extract, which are dense in nutrients and are vitamin rich. They said that the marine plants contain many antiaging benefits and can also provide intense conditioning to the skin. Their blackhead remover also contains bentonite, which they say is for eliminating toxins and absorbing the gunk that collects in the skin pores.

Large pores are one of the main culprits that result in oily skin and the loss of elasticity. Elizabeth stated that More Than Clean contains a blend of pure botanicals that help to regulate the oil production in the skin, and the marine plant extract helps to improve the long liberty of the skin. When the skin becomes healthier, the pores begin to shrink, and this creates a vibrant and younger look. One customer, who is 65 years of age and had trouble with blackheads on her nose, wrote the following review on Amazon,

"This product is amazing...That's the only place I get them. They were impossible to remove until I tried this product. I have only been using it for 5 days and my problem has been solved. No More Blackheads. My pores are noticeably smaller and the ugly blackheads are completely gone. The skin become soft after use so you don't have to put moisturizer on after just getting everything off. Might not be the same for everyone - I have normal skin and only ever had a problem with my nose. I did notice a slight burning in the area it was applied to but HECK the results were way worth it. Thank you, Thank you, Thank you for a fantastic product. I will purchase again and rave about it to all my friends."

Vi-Tae said that customers will be happy with the results that their blackhead remover and pore minimizer is able to achieve, and they're willing to back this up by offering anyone who buys the product on Amazon a one-year extended guarantee. During this time, any customer that is not happy with their purchase will get a no questions asked refund.

For those who would like more information on More Than Clean by Vi-Tae, please visit their Amazon storefront. Interested parties can also go directly to the company's website if they would like more details on Vi-Tae's other products.
