

Minerva Now Has Local Website In Singapore And Malaysia To Serve Its Numerous Customers Better

August 18, 2017

August 18, 2017 - PRESSADVANTAGE -

Singapore, 17 August, 2017 ? A reputable and innovative company driven by a passion for offering high-quality products, application, and engineering expertise is pleased to announce to the delight of its teeming existing and potential online customers the unveiling and addition of its two local websites in Singapore and Malaysia. The company took this bold step of launching these two local websites, <http://www.minerva-intra.com.sg> and <http://www.minerva-intra.com.my> to bring excellence to the door step of their numerous customers in and around Singapore and Malaysia with their high-standard products and services.

Minerva offers quality products and a comprehensive range of services in the field of engineering design, products and solutions. These products and services include System Designing, Gas Sampling and Conditioning System, Custom Control and Monitoring Panels, Remote Asset Monitoring, Material Testing, Flow Metering, Gas and Flame Detection, Environment Monitoring, Specialty Applications, Calibration, and Maintenance.

The company which prides itself in protecting life and assets, optimizing resource usage and sustaining the environment with the right solutions and their capability to customize and develop systems to meet unique requirements have packages for comprehensive commercial and industrial base which include:

- ? Oil and gas, petrol and inorganic chemicals
- ? Plant and general facilities construction and maintenance
- ? Power and utilities
- ? Semiconductor and electronics
- ? Marine and offshore
- ? Quality analysis and testing
- ? Automotive
- ? Academic and research institutions
- ? Residential and Commercial facilities
- ? General Manufacturing, etc.

To make sure that its customers have the maximum satisfaction, Minerva-intra partners with the best in the business to deliver right products to its clients and to provide lifetime maintenance.

The two websites are uniquely designed to be user-friendly. The sites' home pages feature bright colors and uncluttered design. They are faster and easier to navigate. With these new local websites, customers can now enjoy high quality and fast, professional service, respectful approach, and rapid response emergency services.
