

International Speaker Dustin Yoe From OKC Featured At South African Business Conference

September 01, 2017

September 01, 2017 - PRESSADVANTAGE -

International speaker Dustin Yoe, from Edmond, OK, was recently invited to the JT Foxx "World's #1 Wealth Coach & Serial Entrepreneur" Money, Wealth & Business conference. During the conference, he spoke about mindset and marketing, and he received a standing ovation. Yoe is co-founder of TransMedia Powerhouse, which provides the proprietary marketing services that he referenced during his speech.

JT Foxx himself said about Dustin Yoe: "Best selling author, 5 times world martial arts champion, property investor and executive producer and one of the most well-rounded individuals I know. Dustin told me that if you have the 2M - Mindset and Marketing you can succeed at anything. Highly in demand in America."

Dustin Yoe works with people to help transform their businesses from frustrated and struggling to wealthy and free of worry. He has dedicated most of his life to controlling his own destiny, something that many people can relate to. Many business owners he works with have had this same issue, which was ultimately addressed by the services of TransMedia.

Yoe had revealed that he was bullied as a child and he learned to depend on others for protection. However,

he wanted to be able to rely on himself instead. Hence, he learned martial arts. With martial arts, he no longer had to rely on someone else for protection but he still didn't have the control in his life that he wanted. He joined the Army and became a helicopter pilot, where he finally felt in control. But when he was deployed, he realized that he still had to follow orders. Thus, he decided to enter into business with his father, helping clients to take control of their own destiny. He says: "Fail forward, to meet your destiny." Yoe explained that "fail forward" is a mindset of taking action until you achieve the desired result.

Together with his father Jeff Yoe, TransMedia Powerhouse created an automated system for business people that manages, builds, and markets their reputation, thereby attracting more customers. Dustin has developed a number of marketing tips for his clients, including adding testimonials, particularly video testimonials, to their website, which should also be added to YouTube. At the same time, he helps people to build lists, thereby growing further their customer database.

Yoe says: "If you are a business owner or want to be a business owner and want to empower your business growth, connect with me or reach out on social media and we can have a chat of what it will take to help you control your destiny and get you where you want to go in life and business."

He encourages everyone to view the JT Foxx "World's #1 Wealth Coach" introduces Dustin Yoe video.
