Zothex Flooring Kitchen Tiles Can Provide the Wow Factor that Any Kitchen Remodel Needs

March 12, 2021

March 12, 2021 - PRESSADVANTAGE -

Zothex Flooring has been providing materials for the flooring needs of those in and around the Sacramento, California area for over 15-years now. They are well-known for having one of their area?s largest selections of flooring products. One of their specialties is helping their customers that are in the process of doing a kitchen remodel choose the right type of flooring tiles and then expertly install those for them. Their experienced sales staff?s flooring and interior design advice often lead to their clients choosing kitchen tiles that will add an exclamation point to their kitchen remodeling project.

Clayton Rodrigues, CEO, and founder of Zothex Flooring says, ?When people undertake a kitchen remodeling project, they usually spend a large amount of time doing such things as planning the new kitchen layout, shopping for new cabinets, and even deciding if they want new appliances and what type of lighting they will add. What?s missing here? You guessed it, the flooring. That?s a shame too because the proper flooring not only can impact mood and lighting in a kitchen but it also can be the little extra something that completes the perfect kitchen setting. Our tile experts here at Zothex Flooring thoroughly enjoy helping our customers pick out kitchen tile that will greatly complement their newly remodeled kitchen.?

The company CEO also talked about why it?s recommended that those homeowners that are undertaking a kitchen remodeling project get professional help when choosing their flooring tile. He mentioned this is a daunting task because of all of the kitchen tile types and styles that large showrooms such as theirs carry. More details on this subject can also be viewed on their website and their Facebook Page. He went on to give an example of why picking out kitchen tile can be overwhelming at times by discussing some of the different types of tile that they offer. This includes natural stone tiles such as marble, quartz, limestone, travertine, and slate which all have their own pros and cons and fit different types of kitchen settings. Rodrigues then went on to say that the number of natural stone tile options that they offer pales in comparison to the man-made kitchen tile selection that they have. This selection includes cement, metallic, wood, simulated wood, architectural, glass, matte, gloss, and other tiles. He says that most shoppers cannot even name all of the different types of kitchen tile that are available, let alone the role that they can play in different types of kitchen settings. This is all gone over with a customer in addition to them being given suggestions on other tile traits such as size, durability, ease of cleaning, maintenance, and how they impact kitchen lighting. The company CEO added that are willing to take as much time as necessary with a customer to help them pick out a kitchen tile product that they will be very happy with for years to come.

Rodrigues also talked about why so many people in the Sacramento area choose to use them for their flooring needs. The company CEO says, ?We?re a family-owned business providing that prides ourselves on providing the personalized, one-of-a-kind customer service experience you can only find at a small family business. At Zothex Flooring, we also pride ourselves on being more than just salespeople, we like our customers to consider us partners in their quest to come up with the perfect re-design or remodel of their home.? He also added that their new Vacaville, CA showroom is now open in addition to their Sacramento and Rocklin stores, so those in their area of California now have three convenient store locations to choose from. The GMB Location of each of these stores can be seen on their website. Each store even offers free flooring product delivery within 25-miles of that store?s location.

Those in the Sacramento area that would like information on the kitchen tile and other flooring products that the company offers can call them, send them an email, or visit their website.
