Asphalt Driveway Paving Available In Southbury, CT

May 13, 2021

Southbury, Connecticut - May 13, 2021 - PRESSADVANTAGE -
Southbury, CT based Marini Paving, LLC is pleased to announce that they are ready to work with new customers who require the services of a paving specialist. The company is capable of tackling both residential and commercial projects. Click here for more on Marini Paving, LLC.

Marini Paving was launched several decades ago to provide local communities access to professional driveway paving, driveway repair, driveway sealing, gravel driveways, asphalt resurfacing services and more. The team is fully licensed and insured as well, giving customers the practical peace of mind that they want when working with any contractor, no matter how experienced.

While the company provides a comprehensive suite of services that include driveway repair, as well as installation and replacement, they state that it is better to rework a damaged area in order to ensure that any repairs are able to stand the test of time. For asphalt driveway repair, for instance, this means that any damage will be excavated completely before being replaced with the best materials available. This may appear to be a more expensive process on the surface, but the company is confident that customers will eventually see the benefit of this approach.

Robert Marini of Marini Paving, LLC states, ?We all want the most affordable service possible, and that is exactly what we strive to deliver to our customers. However, affordable is not equal to cheap, and we have known driveways to show wear and tear again relatively quickly after repairs due to the nature of the problem. A mere cover-up will not address the issue at its core, and you will undoubtedly have to pay for repairs again in a short period.?

Mr. Marini explains that this is because many problems in a given driveway originate well below the surface, which less complicated repairs do not fix. Should the issue be a pothole, crack, stump, tree roots, or other form of damage, the best course of action is almost always to excavate the area fully and ensure that any new asphalt being laid will be as durable as intended. Marini Paving is able to fill potholes and cracks, repair

sinking or settling ground, address oil or gas damage and even cover snow plow damage by relying on their experience and expertise. The company knows what works, and they serve the communities in the Southbury, Woodbury, Middlebury, Roxbury, Oxford, Monroe, South Britain and Southford areas of New Haven County, Connecticut. A full illustration of the company's geographic service area may be found at the following link: Southbury, Connecticut 06488.

Several reviews on the Google platform also serve to attest to the company?s dedication to exemplary work as well as maintaining a high standard of customer service. Marini Paving has understood from their inception that customer satisfaction is ultimately what defines success on any project. As a result, they are frequently recommended for their transparent policies and work ethic.

As J. Thomas? 5-Star review states, ?No fooling around with these guys. Marini Paving came in and got the job done as scheduled. They actually finished one day ahead of the original timeline. We're very pleased with the level of Robert's workmanship, and our property was left in a broom-clean atmosphere, which we greatly appreciated. Competitive pricing, professional and clean. Hats off to Marini Paving for a job that well exceeded our expectations.?

An excerpt from a more recent but similarly glowing review by M. Finnell shares, ?They were completely professional and very efficient, and the pricing was competitive. I would highly recommend Marini Paving to anyone in need of a new driveway.? According to the company, their team does their utmost to provide a solution to every customer?s paving problems. Even if they are unsure of what they need, members of the community are therefore encouraged to get in touch with the team at Marini Paving to discuss their requirements.

Homeowners, commercial businesses and other customers looking for asphalt resurfacing in Southbury, CT as well as a host of other services are welcome to contact Robert Marini of Marini Paving, LLC for further details. The team is always ready to help customers understand what their services entail as well as work together to identify a schedule that works for everyone involved, which makes Marini Paving one of the best paving companies in Southbury. Additional details may be found on the company?s website and social media platforms as well.
