

Carrollton Foundation Repair Company Successfully Expands To New Geographical Area

November 03, 2017

November 03, 2017 - PRESSADVANTAGE -

GL Hunt, a foundation repair company, recently announced that they would be expanding their service area into Carrollton, TX. The announcement can be read at <http://www.newschannel6now.com/story/36722065/news>. They are now happy to announce that their expansion has been successful and that they have already been able to significantly increase their customer database.

Gary Hunt, owner and founder of GL Hunt, says: "We recently decided to move into the Carrollton community, offering our foundation repair services to clients there. We're very happy to see that our services are being positively received and that more people can now enjoy properly maintained foundations."

The Carrollton foundation repair company is a family owned and operated company. They offer free plumbing tests to all customers and offer a lifetime transferable warranty on all the work that they do. The company also stood out thanks to their discount programs and flexible finance opportunities. Furthermore, they offer free estimates to homeowners, which people can request through the company's website.

GL Hunt has many decades of experience in the industry. They have also made some of their knowledge available to prospective customers on their website. For instance, they have provided vital information on the signs to look out for that could point to crumbling or damaged foundations. Gary Hunt adds: "We are slab foundation repair experts. Our slab foundation repair services will stop foundation cracks and also resolve foundation settlement issues. Without this service, you'll find that your concrete slab foundation continues to sink into the ground. The foundation needs to be raised up in order to become level again."

The GL Hunt foundation repair company also offers a wide range of other services. These includes pier and beam foundation repair, and a top notch mud jacking service. They encourage anyone in the Carrollton area to contact them as soon as possible to find out how their homes or buildings can be made better. Previous customers, such as Evelyn J., have left highly positive reviews about the company on their website, providing feedback on the services that they have received. "We couldn't have been happier with GL Hunt," she says.
