

Colore Art Chalk Ink Markers Make Decorating Fun

June 26, 2015

June 26, 2015 - PRESSADVANTAGE -

Colore Art, an art supplies company based out of Rowland Heights, CA, has announced their chalk ink markers help make decorating fun. The company has stated that while it can sometimes be tedious to setup for sales and display, or complete hundreds of place settings for weddings and other large scale events, these markers create some whimsy wherever they are used.

Crafted to appear as though words and images are drawn on in chalk, these ink pens work on most smooth surfaces, such as windows, mirrors, and metal. This means that they can be used to mark sales prices on cars, decorate home windows for festive occasions, and create one of a kind name plates and decorations for weddings, birthdays, anniversaries, business events, and more. The company describes their wide range of use as follows:

"Home or car windows, mirrors, smooth and non-porous chalkboard or whiteboard, bistro or restaurant menu board, business presentation in office, paint laminated wood, chalkboard labels or stickers for organizing your kitchen mason jars and containers, creative fun drawing for your kids, FOR SALE signboards, erasable LED writing board on cafe and basically any smooth and non-porous surfaces."

Aside from the high quality of the products, and the fun that they invent, Colore Art also suggests that their

customers choose them because of their exceptional customer service. Unlike other art supply vendors who carry such a large selection of products from a number of brands with varying prices, Colore Art focuses on only a few top selling products that they know their customers love. They also, reportedly, carry a large inventory of these items to keep consumers stocked and satisfied. They have said the following regarding their customer relationships:

"We pride ourselves in delivering friendly, efficient and excellent customer service. Our online shop is easy to navigate and consumers can easily find what they are looking for. We are proud of the products and services we offer to consumers and we will do literally anything within our capabilities to make each and every customer happy."

Colore Art is constantly evolving and growing to suit their customer's needs, and this is one reason they invite those interested in their chalk ink markers and other products to visit the Colore Facebook page. Here shoppers can interact with the company through comments, likes, sharing, and private messaging, and they can also see pictures, videos, and testimonials from previous customers.

Colore company website also includes some of these abilities, such as contacting Colore Art with questions and comments, viewing new products, reading about upcoming promotions, and reading the company's informative blog. They encourage any new customers to check out their Facebook page and website before buying, to learn more about their guarantee, product quality, previous customer satisfaction, and to see other products available for purchase.

Although there are other companies providing similar styles of markers, Colore Art believes that the whimsy and fun evoked in these multicolored markers far surpasses competitors. Each set of 8 vibrant pens comes with a silicone pen holder in a surprise color, and can be purchased for \$18.97 through Colore Art's sales channels online.
