Piano Movers in the Bronx Area

Abreu Movers - Bronx Moving Companies announces the launch of their professional piano moving service. As professional movers in Bronx, NY, they have provided families with quality home moves for years. Recently, they have expanded their services to include professional piano moving.

Piano Moving Equipment

This expansion allows Abreu Movers to provide its customers with a complete range of professional relocation services. Piano movers are often needed when people move homes or apartments. A piano is extremely heavy, and it is impossible to be carried up or down a flight of stairs without risking damages or shifts inside the instrument, making piano movers a vital part of a piano owner's relocation. The company states they believe in quality service. Hence, the moving company ensures they utilize proper piano moving

equipment, like the piano dolly.

In addition to their professional services and affordable rates, the movers at said company are also experts at packing and unpacking pianos. "We enjoy what we do," said Carlos of Abreu Movers. "And we're happy to offer this new service." The company points out that their services are accessible through their website here.

Professional Piano Movers

The company praises its movers for being skilled and certified with years of experience. They assure that their professional piano movers are well-trained in handling all types of pianos, including Yamaha, Kawai, Baldwin, Steinway & Sons, Pearl River, Bechstein, Mason & Hamlin, Wurlitzer, and Chickerin. They also handle all types of pianos, namely grand pianos, upright pianos, and baby grands, as stated by the company.

Complete Movers

Abreu Movers - Bronx Moving Companies make themselves available to those looking for a piano moving company in the Bronx, or professional movers anywhere else in the New York City area, like Spuyten Duyvil, Morrisania, Highbridge, Parkchester, Williamsbridge, and Pelham Gardens. According to the company, their piano services apply for long distances and short distances and can even be packaged with a move.
