

Foundation Repair Company In Carrollton Receives Five Star Reviews

November 30, 2017

November 30, 2017 - PRESSADVANTAGE -

GL Hunt, a foundation repair Carrollton, TX business, is proud to announce that they have received two new stellar reviews on their Google Maps profile. The reviews both highlight how happy customers have been with the service they have received. The company wants to express gratitude to customers for their kind words.

Gary Hunt, owner and founder of GL Hunt, says: "We love hearing back from our customers. Our goal is to make sure people can live in safe, beautiful, properly constructed homes and that this doesn't have to cost them too much money. We want to make the process of repairing foundations hassle-free and we're always happy to hear from customers when we have succeeded in this because it tells us we're on the right track."

In the first review, customer Dale A. explains how they were able to benefit from the easy, hassle-free process of foundation repair that Gary Hunt describes. "I really don't like dealing with home repair and all the hassle that usually comes with it. GL Hunt came out quickly for an estimate, set up the time of the job easily and did the work. Easy process, no headaches, nice guys. I also used their financing to take some of the sting out of the repair costs, and that helped out."

The second review was particularly interesting as well, as it describes how customer Agnes H. was able to sell her property thanks to the work that GL Hunt was able to do. She states: "We have been so worried that we wouldn't be able to sell our home because of foundation damage and my husband was getting a job transfer. We called and they came out, gave what I thought was a fair price and finished all the work in a day. We couldn't have been more pleased since now we can feel confident when putting our house on the market."

GL Hunt wants to encourage more people to contact them should they have any concerns about their property's foundations. They have easy finance options available that can ensure anyone is able to afford a home foundation repair.
