

9 Rabbits Diaper Bag Backpack Receives Five Star Reviews

December 06, 2017

December 06, 2017 - PRESSADVANTAGE -

9 Rabbits has recently launched their first product, which is a stylish and fashionable diaper bag backpack. Although the product has only recently been launched, it immediately started to attract a lot of attention, and now already ranks as a five star item on Amazon. People are hailing its various features and explaining how much they have benefited from the backpack already.

"We love to hear from our customers," says Caren Collins from 9 Rabbits. "As this is our first product, it is particularly important to us to hear what we are doing right and where we can improve. We're so happy to find out from people that they love those very things that we have focused our attention on."

The diaper backpack has been designed, firstly, to look incredibly stylish. Featuring neutral, gray colors, it is suitable for mothers and fathers alike, allowing them to have their hands free while looking after their children. This is something that reviewers have picked up on in particular. "The gray color is very versatile and clean [...] Besides, the color is very unisex. My husband sports it with pride....," says an Amazon customer.

Naturally, while the design of the backpack was important to the company, its durability and, above all,

practicality were the real top priorities. They have created a pack with a wealth of different pockets, so that parents can bring every item they need with them. It is made from highly durable, water resistant materials, which means that any spills are of no concern. In fact, the backpack is designed to last a lifetime.

These are all things that clearly shine through in the various 9 Rabbits Amazon reviews. "It really has 17 useable pockets, and can open up very wide for easy packing, or searching for that lost binky. My son loves getting his toys in and out of the bag, and it's organized so well, I don't have to worry about everything falling out, when he's in there...." says an Amazon customer.

Caren Collins says: "We really want to thank our customers for their fantastic words of encouragement."
