Winfield Roofing Company of Annapolis Announces Expansion to Annapolis, Maryland with New Office

August 24, 2021

August 24, 2021 -
The Winfield Roofing Company is pleased to announce its expansion to Annapolis, Maryland with a new office on 918 Chesapeake Avenue, Annapolis. The company has been servicing Anne Arundel County for more than 40 years. With their new office, the roofing repair and installation company would be better suited to quickly respond to the roofing needs of homeowners and other property owners in Annapolis and surrounding areas.

A spokesperson for the Winfield Roofing Company says, ?With the Annapolis area having a lot of storms, there is a high risk of roof damage. Although roofs have been designed to be capable of withstanding the elements, heavy storms have extremely strong winds that can still cause damage to homes and buildings, especially the roofs. That is why we recommend roof inspection to detect damages to the roof that have to be repaired to prevent more serious issues in the future.?

It is important to note that Annapolis is a unique market full of historical homes that consist of asphalt shingle roofs, metal roofs, and slate roofs. These require a local roofing contractor that understands these unique roofing structures and local codes. This central office of Winfield Roofing Company allows for better access to all parts of Annapolis, including Wilshire, Eastport, Annapolis Overlook, Timber Creek, Loretta Heights, Eatons Landing, Hillsmere Shores, Annapolis Cove, and West Woods.

Winfield Roofing Company of Annapolis offers residential homeowners and commercial building owners: roof repair, roof inspection, emergency roofing, roof replacement, and storm damage roofing repair services. This includes work on slate roofs, asphalt shingle roofs, metal, tile, and commercial flat roofs.

When a homeowner or property owner detects a roof leak, it is recommended that they contact a roofing specialist for roof repair or possible roof replacement. However, a roof leak is not the only sign that a roof may require repair or replacement. Broken or missing shingles, cracked flashings, and cracked vent booting

may also be indicative of the possible need for roof repair. Missing or broken shingles can easily be spotted visually, even from the ground.

Meanwhile, flashings are thin pieces of metal that have been placed under shingles and on the valleys and joints of the roof to provide a water-resistant barrier. Therefore, if there are cracked flashings, water can easily get through, which can lead to more serious roof problems. Roof vents protrude from the roof and are designed to expel excess moisture. Vent booting is used to seal the area where these roof vents peek out of the roof but they can crack over time.

The best way is for homeowners and other property owners to schedule regular roof inspections, which can be provided by roofing specialists such as Winfield Roofing Company of Annapolis. Their professional inspections have been observed to enhance a roof?s lifespan, performance and appearance, by allowing the resolution of minor issues before they evolve into serious problems.

There are a number of factors that make Winfield Roofing Company of Annapolis stand out among other competitors. These include: the highly positive and five-star reviews they have received; the A+ rating they obtained from BBB; their licensed, insured, and bonded professionals; their more than 40 years of experience; the fact that it is locally owned and operated; their top-level CertainTeed roofing credentials; their competitive pricing; no high pressure sales; and 50 year lifetime full coverage warranties.

Winfield Roofing Company of Annapolis has been providing their services to the Anne Arundel County since 1979. They have been receiving highly positive customer reviews. For instance, Witting C. has given them a five-star rating and said, ?The roof on my 3-story condo building in Annapolis had to be replaced. Winfield Roofing Company of Annapolis was a pleasure to work with. We had 4 separate roofing companies provide us with a quote. We saved thousands of dollars with this company. They provided photos along the way, and everything turned out great.?
