Great Choice Chiropractic, with an office in Chandler, AZ, is proud to announce that they are the first chiropractor office to blend innovative health care and advanced technology. In so doing, they have become the go-to chiropractor for the elimination of serious and often chronic pain. The chiropractor's techniques can be used regardless of age and regardless of the underlying condition.

The chiropractor from Great Choice Chiropractic says: "I can treat pain caused by work, sports, pregnancy, and car accident injuries. I work with patients ranging from less than one to well over 80. My clinic has earned a reputation of using groundbreaking therapeutic techniques, as well as physical and massage therapy, to help patients that struggle with acute pain caused by injuries and accidents. This is a reputation I am very proud of, and aim to maintain."

As shown on his website, <http://greatchoicechiro.com/>, the chiropractor focuses on a number of specific patients. These include those who suffer from neck, back, and headache pain, and pediatric patients. He also offers a number of specialty techniques. The chiropractor explains: "If you suffer from the debilitating effects of disc pain, carpal tunnel syndrome, or sciatica, I can help. I use the Activator Methods Chiropractic

Technique (AMCT), which ensures quality care that you can count on."

Those who have used the chiropractor's services have been incredibly pleased with the results of the services they were provided and the benefits they experienced as a result. "For over 15 years I had difficulty doing a task overhead (when I looked up or even laid in certain positions) dizziness to the point of losing consciousness," says Justin K. on Google. "Within a few minutes Dr. Hauser rectified that. I am floored by the technique and the results. I became a patient after what Dr. Greg had done for my wife. Quick and lasting results full of simple explanations. Loved it."

People are encouraged to contact the Chandler chiropractor for further information or to book in for a consultation should they be suffering from any kind of pain. Dr. Hauser looks forward to helping them find a solution.
