The Successful Marketing Group, a digital marketing agency in Minneapolis, MN, now offer a free reputation audit. People navigating to their website can receive a free and instant report, finding out their overall reputation score and what their customers are saying. Through this, they can then determine whether further work needs to be done to improve their reputation.

Glory Ramsey from the Successful Marketing Group says: "A business' reputation is its most important asset. Time and time again, we see clients telling us that their business isn't showing up online, that they are overwhelmed by the efforts needed to market their business, and that it feels as if nothing they are doing is making a difference anyway. In many cases, the problem has to do with reputation, which is why we offer a free audit to show people their current standing."

Those who want to access the services of the Successful Marketing Group, after using the reputation audit or not, will find that they have a lot of different options to choose from. The digital marketing company focuses on localized Minneapolis SEO services, for which they are happy to present a number of case studies. They also offer digital strategy development, video marketing, power messaging, Google organic ranking,

Facebook advertising, reputation management, and more. Effectively, they are a full service organization for any business in the Minneapolis area.

Those who have worked with the company in the past have been very pleased with the work that has been done for them. Melanie C., for instance, says on the company website: "Ms. Ramsey and her Successful Marketing Team have been instrumental in helping to promote our new brand. We knew nothing about designing a website let alone what it takes to get our brand noticed/ranked. Glory clearly knows her business and cares deeply about ours what more can you ask for in a business partner."

Further information about Glory Ramsey and her unique methods of working can be obtained through the company's website, or through her LinkedIn page. The free reputation audit is available directly through the company's website, and it provides instant results, after which people can choose the next steps to take.
