

Top Rated Resistance Loop Bands By 4FitU Adds New Limited Release Colors

June 27, 2015

June 27, 2015 - PRESSADVANTAGE -

4FitU, a health and fitness company in Dunstable, United Kingdom, have today introduced their resistance loop bands in additional colors for a limited time. To celebrate the launch, the product, which can be seen on http://www.amazon.com/Bands-Resistance-Bands-Stretch-Bands-Excellent-Quality-Fitness-Bands-Lifetime/dp/B00VP6D9AQ/ref=sr_1_1?ie=UTF8&qid=1434397062&sr=8-1&keywords=4fitu, is available at a 53% discount for a limited time only. As such, the bands cost just \$12.97, instead of the usual \$27.57 for a limited time only. It is hoped that this will enable more people to try the bands.

"Our resistance loop bands are perfect for a range of different resistance exercises, and they come in a set of four different strengths", says Robert Kutyla from 4FitU. "To allow people to find just how good our bands are, we have released them with a 53% discounts while stocks last. We encourage people to get theirs quickly, because they are selling out fast!"

The loop bands are made of excellent quality material, being 100% natural latex, and come in four different strengths: light, medium, heavy and extra heavy. This means people can use a complete set regardless of their fitness level. The bands are often used for yoga and Pilates, but also for any other type of strength training. The company believes in the quality of their product so much, that the bands come with a lifetime warranty, something that is rare for these types of products.

One of the great benefits of these bands is that they are lightweight and hence very portable. Hence, while they can be used at the gym or at home, people also often take them with them to the office or on vacation, where they can continue to work out whenever they have some spare time. The bands can be used to tone and strengthen every part of the body, and they also support weight loss activities. Physiotherapists recommend these bands because they achieve all these goals in a gentle, supportive manner.

While having only been available for a short period of time, the bands have already received a range of very positive reviews. "Last year I bought a set of resistance bands from a big retail store to used it on my holiday as a substitute for my usual workout", says Cherry. "Well those bands lasted me 3 days, and they all ripped.

When I received the resistance bands from 4FitU I noticed that they are from a much better thicker and more durable material. They are small so I can have them in my hand bag or I can wrap it like a bracelet around my wrist when I go for a run. I love these resistance bands, but what I love more is the life time warranty."
