Minneapolis Personal Injury Lawyers Update Website

March 19, 2018

Minneapolis, Minnesota - March 19, 2018 - PRESSADVANTAGE -

McEwen & Kestner, PLLC, a reputable legal team in Minneapolis, MN, is proud to announce that they have launched their updated website. The focus of the website is on helping individuals who have been involved in car accidents, truck accidents, along with bus, garbage truck, and plane accidents. They are also promoting their legal services for dangerous drugs lawsuits and burn injury cases. For all cases the law firm is able to provide assistance to clients across Minnesota.

Peter Kestner, partner at McEwen & Kestner, PLLC, says: "We have successfully recovered over \$500,000,000 for our clients injuries. Let us help you get the compensation you deserve. We have a wealth of experience to fall back on and will always fight to make sure you are treated fairly and can recover from your injuries in a comfortable manner."

As part of their updated website, the firm has also engaged in an aggressive social media campaign. They have used Facebook in particular to create a community where people can ask questions and make suggestions in relation to cases involving injuries and accidents. They also regularly share news updates through their social media pages so as better to empower their prospective and existing clients. The Facebook page is also open to be used for people who wish to leave reviews about the service they have received.

Reviews are also regularly left on the company's Google maps page. Nathan O., for instance, says: "Very informative, they seem honest & upfront and I would recommend them to anyone who has been dealing with this nightmare of insurance run around."

The law firm has also been able to take on national cases involving trucking accidents as indicated on their trucking lawyers website. Peter Kestner explains: "Immediately after being injured in a trucking accident, you are thrown into a complicated and frustrating legal system. Some trucking accident victims do choose to handle their own accident claims, but the bottom line is that getting compensation for your injuries isn't easy, especially when you're dealing with accidents that involve serious injuries and commercial vehicles."

People are encouraged to contact the law firm as soon as possible to get started on getting compensation for any injuries and damages they have sustained.
