Beauty Company Missame LLC Launches Their Pinterest Account

October 28, 2015

October 28, 2015 -
Missame LLC, a Sacramento CA based beauty Company, has recently launched their Pinterest account, located at https://www.pinterest.com/missamebeauty/. The social media account will be used to share beauty tips, makeup advice, images of different makeup looks, wedding style inspirations, as well as natural lifestyle recipes for healthy living, and other health related subjects that the Missame brand believes in.

The social media account was launched in the hopes that Missame would be able to better interact and communicate with their client base. The company has expressed that this will be a place for beauty lovers, makeup users, fashionistas, and health enthusiasts to gather and share in the Missame lifestyle.

The Product and Reviews section allows Missame followers to learn more about different products by Missame, and to get personal opinions on how those products work. This includes everything from makeup brushes to bath bombs, as well as facial tools, and various other beauty products.

The new Pinterest account also provides access to Tips and Tricks for viewers to learn inside secrets on how to properly apply lip liner, foundation, and mascara. It offers visual aids on the creation of the eyeliner wing

tips, false lashes, and contouring, among other beauty staples.

Healthy Food Recipes pulls away from the external beauty treatments, to provide followers with information on how to stay healthy and increase inner beauty. Recipes for smoothies, salads, and a variety of entrees and desserts allows Missame clients to follow along and gain a healthier lifestyle.

Skin Care is another section dedicated to caring for oneself over the addition of beauty products. It offers natural skin care methods such as face masks, acne care, and wrinkle solutions.

Additional tabs like Humor and Quotables gives a glimpse into funny memes, inspirational quotes, and a multitude of other images and text to encourage laughter and motivation. The company has been open in their hopes of increasing their client base, inspiring others to lead more healthy lifestyles, and opening the door for beauty novices to become beauty experts. They invite all those interested in beauty, makeup, and healthy living to follow them online through https://www.pinterest.com/missamebeauty/, share their pins, and leave feedback for the growth and improvement of the company.
