January 10, 2022 -
California, January 2022: Assured Standard releases an online guide that explains how data breach insurance works and how it can protect a business. The article, published on Assured Standard?s website, was produced by the company?s insurance experts. The guide was released to aid anyone looking to financially protect their company in the event of a data breach by providing reliable information on data breach insurance.

Data is vital to any business, whether it's customer data, employee data, or proprietary information. However, data security has never been more at risk. Due to record numbers of data breaches and cyberattacks, getting data breach insurance is crucial. Many businesses are unaware that big data insurance exists or how it works. This guide was designed to provide businesses with detailed information on the importance of data breach insurance in 2022.

According to Assured Standard, their experts conducted thorough market research to compile the guide. The publication aimed to simplify the complexities of insurance policies by guiding readers through the

complexities of cyber liability and data breach insurance policies. The guide explained the differences between these policies and what they cover. It was intended to give a clear understanding of insurance policies or plans a company needs to be fully protected. Readers can find the full guide by visiting their page: https://www.assuredstandard.com/data-breach-insurance/.

Since the launch of their site, Assured Standard has provided online resources and detailed research with resources, analyses, and guides to inform readers about all the tools and knowledge needed so they can weigh the pros and cons of each policy before making an informed decision. The guide was published as part of their regular research on B2B coverage options.

?We hope to clarify and simplify the intricacies of insurance policies for businesses through this guide,? said Chairman and CEO of Assured Standard Arthur Williamson. He believes in providing readers and businesses with proficient insurance knowledge right at their screens in a comprehensive and simplified form for them to understand.

In its effort to help people with their insurance queries and provide resources and tools for individuals and businesses, Assured Standard offers advice, aids, and practical tips on getting the right B2B insurance policies for themselves. It also discusses commercial truck insurance, worker?s compensation, and business owners? policies.

?With our resources, we bring forward new ways to provide information and excellence to answer the different insurance queries of our readers,? said Williamson. Readers can learn more about cyber insurance by visiting their page: https://www.assuredstandard.com/cyber-insurance/.
