January 12, 2022 -

Queens, New York - Queens workers compensation attorney Keetick L. Sanchez answers the question ?Should You Get a Workers Comp Attorney?? in her new blog post. The lawyer mentions that if someone has been injured in New York, you should be able to collect benefits for your injuries.

According to the Queens workers compensation attorney, ?The ideal scenario would be that your worker?s compensation benefits would effortlessly kick in to allow you the time and medical attention you need to heal and get your life back on track. Unfortunately, getting the worker?s comp benefits you deserve is not always that simple.?The lawyer also emphasizes that it is important to get the guidance of an experienced attorney when making decisions towards collecting an injury claim. A skilled lawyer may be able to guide the victim on what steps to take and help them understand the complexities of the insurance system.

The Queens lawyer enumerates the reasons why someone might need a worker's compensation attorney.

She adds that it is possible for someone to not need a lawyer. However, some scenarios do require a worker's compensation attorney. These scenarios include being denied a benefit, the insurance company is blaming a pre-existing condition, an employer denying that the injury happened at work, and many more.

Attorney Keetick Sanchez also adds, ?Workers comp settlements aren?t always good ones. If you think that your offer is not sufficient to cover your costs and lost wages, you will want the assistance of a New York workers compensation attorney.? She says this in relation to a scenario where the settlements don?t cover all your costs.

In addition to the aforementioned, attorney Keetick Sanchez also mentions that a victim might need a workers compensation attorney if they aren?t able to work for an extended period of time. A lawyer might also be needed if the victim?s employer is retaliating. This means that they may have cut the employee, harassed them, or even fired them after the employee filed a workers compensation.

Queens workers compensation attorney Keetick Sanchez emphasizes that a skilled attorney may be able to help navigate the compensation and benefits that the victim deserves to receive.
