President's Day Flag Sale at Star Spangled Flags

February 17, 2022

February 17, 2022 - PRESSADVANTAGE -
In honor of Presidents? Day this weekend, StarSpangledFlags.com is having a sale on their Betsy Ross flag. This flag is often considered to be one of the first flags to represent the United States of America.

Betsy Ross was a seamstress and upholsterer who lived in Massachusetts during the Revolutionary War, which took place after the United States of America declared independence from the British Monarchy. According to tradition, Betsy Ross stitched the first American Flag with 13 red and white stripes and 13 stars on a blue background representing the 13 current colonies. The stars are in a circle, pointing outwards, as a way of representing that none of the 13 colonies were better than, or above the others. While there is no documented proof that this story is true, the flag design still bears the Betsy Ross name.

This weekend, Star Spangled Flags will be offering the Betsy Ross flag, and their entire selection of premium American and Historical Flags, at a 10% discount with a coupon code displayed in a banner at the top of their website. All flags from StarSpangledFlags.com are 100% made in the USA using American labor, shipping, and materials.

The Betsy Ross flags feature a bright white header, two sturdy brass grommets, heavy duty nylon fabric that is sun-protected, lock stitches on the seams, 4 rows of stitching on the fly end, and reinforced corners to prevent fraying from the wind. Customers love the Betsy Ross flag, with Verified Reviewer Chris saying, ?The fabric is very high quality and the design is beautifully stitched, exactly as pictured with the 13 stars pointing outward from the center. If you're looking for a Betsy Ross flag, I highly recommend this one!? Anyone interested in purchasing the Betsy Ross flag can do so on this page: https://starspangledflags.com/flag/betsy-ross/

In addition to the Betsy Ross flag, Star Spangled Flags sells the national American flag in a selection of sizes and different materials depending on what customers plan to use them for. They have a quality, heavy duty polyester flag which is designed for high wind environments, and cotton flags which are usually flown or displayed indoors, or sometimes used to drape over a casket at a funeral.
