Ranger West Expands Reach Of Life Insurance Products To Greater Vancouver Area

November 06, 2015

November 06, 2015 - PRESSADVANTAGE -

Ranger West, a business in Port Moody, BC, Canada, is proud to announce that after 25 years of service, they are expanding their operations. They are now offering their line of insurance products outside of Port Moody, covering the entire greater Vancouver area. These products are available for personal and business clients alike.

"We have been successfully serving customers in Port Moody, Coquitlam and Port Coquitlam since 1991," says Brent Ranger from Ranger West. "Now, some 25 years since we have opened our doors, we feel it is time to expand our reach and deliver our services beyond these geographical areas as well. We look forward to working with new individuals, families and businesses in the greater Vancouver area."

The company serves as a benefits advisor for over 300 firms within the greater Vancouver area. They also exclusively advise The Chambers of Commerce Group Insurance Plan. This is a testament to their excellence and quality of service. Although their main focus is on life insurance, they also offer a range of other important insurance products, such as health benefits, critical illness insurance and more.

The life insurance services offered by the company have been positively reviewed by their many clients for years. "We have been a client of Ranger West for 12+ years, and during that time the service for the product they provided, the Chambers of Commerce Group Insurance Plan, has been exemplary. They're always there to answer question and walk us through any process needed," says Andre Periana, President of Andlor Consulting, Inc. "Starting 12 years ago as a single person organization and growing to where we are now the level of service has always been the same 'outstanding', I would not hesitate to recommend the company and the products they provide."

Ranger West is excited about rolling out their life and disability insurance services across the greater Vancouver area. They are ready to take on a new influx of clients and encourage everyone to contact them online or directly to discuss their insurance needs. Their focus is on finding a plan that suits individual needs, including budget.
