

Best Night Vision Camera Introduced At Online Store

September 14, 2018

September 14, 2018 - PRESSADVANTAGE -

Cheap 3D Printer Cost has announced that it has added a portable night vision camera to its online store. This is an Acehe portable night vision video camera, which is suitable for the beginner. More information about this digital video camera can be found on the company website at <https://cheap3dprinter.com/products/portable-night-vision-fhd-1920-x-1080-3-0-inch-lcd-touchscreen-18x-24mp-digital-video-camera-camcorder>.

Roy, a spokesperson for Cheap 3D Printer Cost, says, "This is a portable night vision video camera with high definition support, 1920 x 1080, and a 3 inch LCD touchscreen display. This is a must have for those who want to take pictures or capture videos even at night."

The highest image resolution for this portable night vision video camera is 24 MP for images and for the video, the highest resolution is 1920 x 1080. This 270 degree rotary digital video camera supports video AVI format and is capable of 18x zoom. It is provided with a memory card slot for a TF card of up to 32 GB. It is powered by a 3.7V 1000 mAh rechargeable battery and it has a remote control for the user's convenience.

The spokesperson for the Cheap 3D Printer Cost online store explains that the night vision camera is part of the newly added Night Vision Collection. This collection is made up of binoculars and video cameras for those who want to see things at night for whatever reason. These include a Night Vision Monocular Tactical Infrared Telescope for Night Hunting and Navigation; a Closed Circuit Television System with 7-inch screen; a Dome LED Infrared Surveillance Night Vision Camera; and a 4x50 Digital Hunting Night Vision Binocular with 300 m Range with infrared day and night telescope.

And for those who are interested in other kinds of products, Cheap 3D Printer Cost has a wide range of items available in its online store. The online store's website is provided with a Catalog section where people can search for various products. These include a 400 mm drill flexible shaft metal extension screwdriver drill bit holder; a 3 in 1 power cutting tool with built-in wire cutter, utility knife and pruning shears; a DIY mini rotating lathe; a 5 axis 6040 CNC milling machine and 6040 wood lathe; a 1/4-inch quick release propane adapter shut off gas adapter for propane hose; a portable electric household sewing machine; a 10-foot propane hose

with quick-connect adapter; a liquid quicksand transparent phone case; and a metal stone wood CNC laser engraver.

Another interesting category in the Cheap 3D Printer Cost online store is the Useful & Fun Gadgets Collection. This is a fun collection of products that have been recently included in the store and has proven to be quite a favorite for many people. These include a Mini Wifi FPV RC Drone with Camera Real Time Transmission with LED Light, an Ambarella A7 Car DVD Dash Camera with GPS Logger G-sensor, a DVD R310 Dual Lens Dash Cam with Infrared Night Vision, a Foldable Pocket Drone Selfie RC Drone with Remote Control and 720P WiFi Camera, a Funny Ceramic Mug with a Middle Finger Gesture Inside the Cup for Mixing Coffee and Milk, Cat Eye Sunglasses for Women, IPX7 Professional Waterproof Bluetooth Wireless Headphones, and creative iPhone cases.

Another new collection is the Small Woodworking Lathe Collection. As the name implies, it is made up of lathe machines for wood, such as a Wood Lathe CNC Machine for engraving, drilling and milling; a 60W 12000 RPM Mini Metal Rotating Lathe Model Making Tool Milling Machine; a 5-axis CNC milling machine; the 6 in 1 Lathe Machine Tool Kit for Drilling, Sanding, Turning, Milling and Sawing Plastic, Metal or Wood; and a CNC Lathe Machine with Water Cooling Spindle for 3-axis metal engraving and wood routing for full assembly.

For those who would like to know how long it would take for an item to arrive, Roy explains that it will usually arrive within 10 to 12 business days for those who are living in Canada, US, UK, and Australia. For other countries, it may take as long as 28 business days, depending on the speed of customs processing for that particular country and how close is the nearest warehouse.

Cheap 3D Printer Cost guarantees that it will replace any damaged or faulty item at no additional cost to the customer. However, customers will need to inform them about this within 48 hours after receiving the product.

Those who need more information about the night vision camera or any other product can visit the Cheap 3D Printer Cost website at <https://cheap3dprintercost.com/>.
