

Outpatient Physical Therapy Jobs Now Open In Fredericksburg

April 07, 2022

Virginia Beach, Virginia - April 07, 2022 -
Proactive Healthcare Recruiters based in Virginia Beach, VA is pleased to share that applicants may now submit themselves for consideration in Outpatient PT Jobs in Fredericksburg. They are seeking out highly qualified, forward-thinking healthcare professionals to seamlessly integrate with existing healthcare teams.

The facility in question is dedicated to working with Podiatric foot & ankle surgeons in diagnosing and treating patients with musculoskeletal diseases and conditions. They work with a number of health care professionals to provide follow-up care after an initial diagnosis has been made. Physical therapy as a profession developed due to the initiative of doctors specializing in the field of musculoskeletal medicine who sought to enhance the recovery and rehabilitation of their patients through focused training in exercise.

It has been proven that physical therapists who work directly with physicians providing on-site physical therapy in their offices versus off-site is much more beneficial to the patient. This cuts down on time away from work and the ability to resume normal duties comes at a faster pace. Working closely with the physicians also is important because the information regarding patients can be delivered in a timely and frequent fashion which reduces errors.

James Pemberton, CEO, and co-founder of Proactive Healthcare Recruiters says, ?We use cutting edge technological innovations to achieve top-notch results, and we are looking for suitable candidates who are interested in working as physical therapists. You have the opportunity to join the best team of therapists in the Fredericksburg area and start making a difference today!?
