Roofers Company in Douglasville GA Receives Highly Positive Review

April 22, 2022

April 22, 2022 - PRESSADVANTAGE -

Paramount Roofing & Consulting, a roofing company based in Douglasville, GA, is happy to announce that they have received a five-star customer review on Google. The customer praised Otis Floyd for his professionalism and for his in-depth knowledge, explaining competently the issues with her roof and the fact that they were able to repair the roof in just a short period of time. The company has been a leading provider of roofing services in Douglasville for over 12 years. They have experience working with various styles and sizes of homes across Georgia.

Otis Floyd from Paramount Roofing & Consulting says, ?We feel proud to have received another five-star review because it truly makes us happy to have served our customers well. And it also tells us that we are on track to achieving our goal of providing the best possible customer service. So if you suspect that your roof may be damaged, go ahead and give us a call. We are located in Douglasville, GA, and service homes across Austell, Smyrna, Powder Springs, Southern Fulton County, and all other surrounding areas. We?re open from morning to night and are standing by to help you.?

In the mentioned Paramount Roofing & Consulting customer review, Paula G. said, ?Otis is very

professional and extremely knowledgeable. He was able to explain the issues with my roof in a manner that was easy to understand and repaired my roof within a short period. I will recommend Paramount Roofing and Consulting to anyone needing great service and I plan on using them for any issues in the future.?

Paramount Roofing & Consulting provides roof repair services, roof installation services, and roof tarping services. They are ready to provide a full-scale roofing replacement or installation service with a team of roofers who are licensed, insured, and bonded. They want to emphasize that roofing is a dangerous and tricky task and advise homeowners not to consider the roof as a do-it-yourself (DIY) project. Not only is roof repair and installation dangerous but those who don?t have the necessary experience and knowledge will not be able to assess the roof properly and determine whether it needs to be repaired or replaced. And then there are also the requisite permits.

In a full-scale roof installation, carrying the shingles and other materials up and down the ladder can really be heavy work. And working on the rooftop itself can be very dangerous, especially if the roof pitch is not within the 4/12 to 9/12 range. In addition, roof work requires specialized tools. A professional roofer always brings the necessary tools, such as nail guns and air compressors. The roofing professionals from Paramount Roofing & Consulting have all the required safety equipment, are knowledgeable in securing all of the necessary permits, and have supplementary but essential tools, such as extension ladders to make the tasks safer and easier to do.

Paramount Roofing & Consulting has developed the reputation of being the leading roof repair and maintenance company in the Douglasville/ Smyrna area and they are committed to providing the necessary assistance and service to their customers. And no matter how small or large the roof damage, they will help the homeowner in processing the insurance claim in order to get a new roof. They serve homes across Smyrna, Powder Springs, Austell, Southern Fulton County, and all other adjacent areas. When customers ask for an estimate, they will send one of their insured and licensed representatives to inspect the home and the roof and then provide the customer a quote that is totally free of charge. They have hundreds of satisfied customers in the Douglasville area and they are ready to provide homeowners with references.

When looking for roofers in Douglasville GA, homeowners and other property owners can check out the Paramount Roofing & Consulting website, or contact them on the phone or through email. They are open from 8:00 am to 7:00 pm, from Monday to Saturday.
