ManageByStats is a suite of Amazon seller software tools that provides business analytics and automation for Amazon sellers.

"We're very excited to be offering this special access," says Mister Jepsen. "The doors open on this exciting offer in the next week, so we're getting the word out early in anticipation of the scale of the event."

The new course offering is called ASMX, and is the tenth version of the popular training series for Amazon sellers. Amazing.com has taught thousands of people how to sell successfully on Amazon.
