Dr. Mark Hickman Is Offering An All-Inclusive And Affordable Vasectomy Reversal Procedure In New Braunfels, TX

May 20, 2022

New Braunfels, TX - May 20, 2022 - PRESSADVANTAGE -
Dr. Mark Hickman is offering affordable vasectomy reversals at his clinic in New Braunfels, TX. The nationally renowned doctor is an expert in microsurgery and his services have received overwhelmingly positive reviews for many years.

Dr. Hickman addresses men who might be considering getting their vasectomy reversed by saying, ?You did the right thing once. You planned for a family. You bought the house. You saved up the money. You brought a new life into this world. And when you had achieved what you had planned for, you did the right thing. It is commendable to have the courage to undergo a vasectomy, especially knowing the baseless and ill-informed misconceptions that people have about the procedure. You overcame that fear because you cared about the financial security of your family and wanted to make sure that an unplanned pregnancy doesn?t jeopardize your little one?s future. You did the right thing. However, now that things are different and you are much more secure in life, maybe your heart longs for the joy that you felt when your child was born. You still love your family but you may want to feel the exultation of fatherhood again. Don?t let the wise decisions of the ?past you?, stop you. Vasectomies are fully reversible and with the advancements in microsurgery, doing so is just

a matter of undergoing a painless procedure that takes only a couple of hours. Getting a vasectomy reversal has never been easier and at Microsurgical Vasectomy Reversals in New Braunfels, TX, we are making the dream of becoming a father come true, a second time, for responsible men all over the country.?

Dr. Hickman has more than 26 years of experience and more than 1,300 vasectomy reversals under his belt as a leading minimally invasive surgeon. He received his medical degree from the University of Texas Medical Branch in Galveston, TX, at the age of 23 following which he had extensive training in General Surgery Residency at the University of Texas for five additional years. He is an expert in laparoscopic (minimally invasive telescopic) procedures. He has invented several surgical instruments and has been awarded a U.S. patent. He is also recognized as a contributor to several other important minimally invasive patents. Dr. Hickman has also had the honor of serving his country in Operation Desert Storm aboard the hospital ship USNS Mercy. He is also an active member of the church and currently serves on the Apostolate Board for the North American Province of the Missionaries of the Holy Family. He also currently serves on the Board of Directors of TIPHER (The Institute for Public Education, Health, and Research).

During the vasectomy reversal procedure, Dr. Mark Hickman performs a microsurgical repair of the vas deferens with a powerful operating microscope and fine nylon suture that is much finer than a human?s hair. A typical repair requires 10-15 stitches. Dr. Hickman?s goal is to create direct and careful alignment of the lumen of the two ends of the vas along with a watertight closure. The doctor might also recommend a vasoepididymostomy depending on whether the vas deferens is obstructed at two levels ? a determination that can be made by extracting a sample of fluid from the testicular end of the vas deferens and examining it under a laboratory microscope.

Dr. Mark Hickman currently offers two all-inclusive affordable vasectomy reversal options. The $3,300 microsurgical vasectomy reversal offer includes local anesthesia and an oral sedative. The $4,200 offer is performed under IV sedation and is administered by a Board-Certified Anesthesiologist. Both microsurgical options are all-inclusive with no hidden fees. There is no additional cost if a vasoepididymostomy must be done during the vasectomy reversal procedure. The clinic does charge a non-refundable deposit of $800 to deter customers from making last-minute cancellations.

Readers can contact Microsurgical Vasectomy Reversals by Dr. Mark Hickman at the phone number (830) 660-0600. The clinic is located at 598 N Union Ave # 200, New Braunfels, TX 78130.
