

Aerial Tree Service Provides Emergency Winter Tree Removal

October 09, 2018

October 09, 2018 - PRESSADVANTAGE -

Calgary, AB Homeowners who have trees on their property and who want to ensure the safety of their family are encouraged to keep the number for Aerial Tree Service in their list of emergency contacts this winter in case they find themselves in need of emergency tree removal and tree service in Calgary following a harsh storm.

An emergency can happen at any time, and the strong winds and heavy snows of the winter season can cause even a seemingly well-rooted tree to come down and cause damage to property, surrounding trees, or even worse, injury to a friend or a family member.

No one expects a tree to fall on their property until it happens. Unfortunately, the winter season can bring weak or dying trees crashing down, as heavy ice and fast winds become too much for the tree to handle.

This year, residents are encouraged to keep themselves prepared in the event of a fall or tree emergency by keeping the number for Aerial Tree Service in their list of emergency contacts. This company is proud to provide emergency tree services that will help to minimize both health concerns and property damage

following a fall or storm.

Anyone who is interested in learning more about the tree services currently being provided by the team at Aerial Tree Service, the leading tree service and tree removal company in Calgary, AB, is urged to contact them as soon as possible.

This company can be reached by calling 757-204-1390 for a free quote or visiting online at [http://aerialtreeservices.com/tree pruning, trimming or removal needs](http://aerialtreeservices.com/tree%20pruning,%20trimming%20or%20removal%20needs).

About Aerial Tree Service, LLC

Aerial Tree Services Ltd. has been serving Calgary and surrounding areas with year-round tree care for over 26 years. They have worked for both residential and commercial properties. Since its inception in 1992, the company has served the Calgary area by offering tree trimming, removal and stump grinding to the many wooded properties in the community.
