June 21, 2022 -
OC Partnership presents a new report that reveals the best feminist podcasts on gender equality. The report, published on OC Partnership?s website, was compiled using expert opinions on the topic. The report was released amid the rise in female podcasts.

Podcasts are becoming more and more popular as a new trend. Despite the fact that 80 percent of most-watched shows are hosted by men, the vast majority of podcast listeners are women. Podcasts were seen for a long time as a boys? club. While they may be less visible or heard, women have been a major force behind podcasting?s rise, especially after a recent wave of podcasts dedicated to feminism, women's issues, gender equality, and equity. This publication aims to address the lack of recognition of women?s podcasts.

For the report, female business leaders were consulted for their professional views on the top feminist podcasts. The final compilation and review of the report were overseen by OC Partnership?s team of sociology experts. The experts interviewed for this article discussed the different podcasts and their approaches to feminism and gender equality. The report found that ten of the best feminist podcasts offer

high quality and provide a high level of entertainment. The full report can be found here: https://www.ocpartnership.net/10-best-feminist-podcasts-on-gender-equality/.
