Keyforge Achieves #1 Google Ranking For SEO Expert Philippines

November 17, 2015

November 17, 2015 -
Keyforge, a company based out of San Jose City, Philippines, has achieved a huge ranking milestone, they have met their goal of ranking number one on Google.com for the term, "SEO expert Philippines." Being a search engine optimization company, Keyforge understands what it takes to reach the top of these search engine rankings, and hope that this success proves to clients just how obtainable these top positions are. They explain the attraction, stating: "The first page of Google is a like a prime office location where all of your target customers pass by. It means your website will always have visitors that are looking for your business and your website will always be busy."

Individuals and businesses interested in learning more about Keyforge and their SEO services are invited to visit the company online at Keyforge.net. Here, potential clients can gain access to company specific information, as well as go over some of the key terms in the SEO industry. SEO has fast become a crucial tool in the marketing industry, helping to make a difference between those who appear in a general search engine, and those who aren't seen due to ads and similar links higher on the page. Keyforge explains: "We pride ourselves as experts in Search Engine Optimization. Our strategy is not only taking the top spot on Google, but we dominate the first-page results. We will help your business to become visible for potential

customers and clients. You will get more leads who will create an avalanche of profit for your success."

While the number one ranking obtained by the firm was a national ranking within US based Google.com, Keyforge has reported on the arrival of new international customers due to the keyword. Clients from across the globe, including those ranging all the way from Arizona to Australia are finding their way to the company following their victory, and contacting them for their own SEO help. They encourage businesses who have yet to try SEO in some form or another to click here to get started, stating it is never too late to rank higher.
