Franklin, TN- Alexander Shunnarah Trial Attorneys released a blog post explaining the importance of hiring a motorcycle accident lawyer. Alexander Shunnarah, Founder and CEO of Alexander Shunnarah Trial Attorneys, has decades of experience in successfully representing victims of motorcycle accidents. The article cites statistics that claim that over 88,000 people are injured in motorcycle accidents each year, resulting in painful and debilitating injuries from road rash to traumatic brain injuries.

Motorcycle accident injuries can cause significant financial losses for the victim, including damages to the vehicle, medical expenses, and lost wages. According to Attorney Shunnarah, personal injury law requires insurance companies to honor their policies regarding motorcycle crashes. Insurance companies are not easy to get compensation from singlehandedly by a victim, which is why it is essential to hire an attorney. A motorcycle accident lawyer is experienced in handling insurance providers and negotiating compensation claims.

An experienced motorcycle accident lawyer will aid an injured motorcyclist by helping collect and assess evidence, identify the at-fault party, and file the victim?s injury claim, complying with the statutes of limitations in their state. Alexander Shunnarah Trial Attorneys advises victims to get in touch with an experienced motorcycle accident lawyer as soon as possible to receive maximum compensation.

Attorney Shunnarah also lists tips for victims to follow after the crash, including calling the police, gathering information, taking photos at the accident scene, and swapping personal information with the other driver if the victim is not critically injured.

The blog post advises victims to seek emergency medical care for a complete recovery and report the crash to the insurance company within 24 hours of the crash. An experienced attorney is the best person to guide a victim about their legal rights so they can maximize their financial recovery.

A motorcycle accident lawyer is the best legal help for a victim with serious injuries. The attorney will help a victim document their injuries to ensure all medical bills are covered in the motorcycle accident lawsuit. ?The legal process after a motorcycle crash is filled with confusing jargon and frustrating paperwork that can make your head spin, especially if you?re recovering from injuries. Insurance companies also have aggressive lawyers standing by to settle their cases for cheap. The victim needs a dedicated attorney on their side,? states Attorney Alexander Shunnarah.

An experienced motorcycle accident lawyer will provide legal advice about what to expect after the accidents and the claims process. They will determine the compensation that their client can expect to receive based on the circumstances of their accident and the extent of injuries.
