Leading Houston Telecommunications Company Hooper Communications Celebrates Their 29th Anniversary in Business

November 13, 2015

November 13, 2015 -
Earlier this year, Houston, TX-based Hooper Communications proudly announced their 29th anniversary in business, continuing on their mission to sell reliable telecommunication products as an authorized NEC Diamond Associate dealer.

?We don?t have to be the biggest to be the best, we just treat every customer like they are our best customer,? commented Robert Hooper, President of the company. ?I am very proud of what the Hooper Team has accomplished over the last 29 years, especially having earned a reputation for great service!?

According to the company, they are very happy to have partnered over the years with NEC of America, teaming up to deliver their often praised reliable service and exceptional business phone systems. Every customer call is treated as exceptionally important, treated with knowledge and care by an engaged professional. This philosophy has not only won customer loyalty, but also helped build new customer streams to continue helping the business expand.

Feedback from clients continues to be passionate about Hooper Communications' products and services.

Clay Hardman, President of Hardman signs, recently said, ?Hooper stood out because of their honest and straight forward approach. We interviewed several vendors to replace our existing phone system. Hooper stood out because of their honest and straight forward approach. It?s been a few years now using their service and I?m happy to say it was the right decision.?
