Cali Dreamz Real Estate has announced that they are now offering sell my house services to homeowners living in Sacramento. The Rocklin, California based full-service discount broker recently stated that they can now help homeowners to sell their homes in Sacramento, as well as Yolo, Placer and El Dorado counties.

Jordan Yarbrough, the Broker for the real estate agency says, ?Not only can we help you to sell your home quickly, we can help you to keep more of the equity in that home for yourself.?

Yarbrough is a broker with more than 16 years experience in Real Estate and Mortgage with helping homeowners to sell their homes. He specializes in listing, relocation and mortgage assistance. He states that the firm offers experienced buyer?s and seller?s agents that will ensure that everyone in the transaction comes away satisfied with the sale.

Yarbrough states that honesty, commitment to clients and expertise are the foundations of the firm and states that they work with individuals on a personal basis, ensuring that they know exactly what the seller wants and helping them to reach their goals. The firm works from their Rocklin office and provides services throughout

the region for those looking to buy or sell. Yarbrough states that now is the time to consider selling while the market is ripe for buyers and says that he and his team can help homeowners in the area to prepare, list and ultimately sell their homes for the price that they want or need.

"Communication is key," Yarbrough continues. "When you come to us and say 'sell my house now', we get right on what needs to be done to get your sale done quickly and to your ultimate satisfaction. We have a long list of satisfied clients that can attest to the fact that we work with you every step of the way, communicating throughout the sale and getting your home out there where interested buyers will see it."

Yarbrough says that the firm specializes in home marketing, ensuring that each home is put in front of potential buyers who have the interest and the means to purchase the home. He says that their personalization helps them to build friendships with clients which in turn helps sellers to be more at ease with the transaction. Real estate sales can be frustrating and confusing. Yarbrough says that Cali Dreamz Real Estate works with sellers and buyers to ensure that they fully understand every aspect of the transaction so that there are no surprises down the road.

Statistics show that now is a good time to sell in California as mortgage rates are lower than they have been for quite a while. The firm says that anyone who is considering selling should contact them to learn more about how they can help to market and show their home to buyers and get it sold quickly. Yarbrough says that the main frustration with real estate sales is the seller having to wait for a potential buyer. He says that while other real estate firms drag their heels when it comes to marketing a home or possibly do not know how to properly market, their firm has strategies in place that will get those homes noticed. The firm recently began working with the internet real estate giant Zillow and says that this is the best way to show a home to potentially thousands of interested buyers at once, ensuring that the sale goes quickly.

Yarbrough says that they have had multiple clients ask them to, "Sell my house on Zillow," and states that the website is a great way to get a home noticed. Zillow allows for listings of homes with multiple images as well as information such as area schools, tax rates, similar homes in the area and more. Yarbrough states that Zillow is one of the fastest and easiest ways to sell a home today and that any real estate agency that is not working with the website is missing out on a lot of traffic to their home listings.

Jordan Yarbrough has spent the last two decades working in developing, marketing and growing his company. He says that his expertise goes beyond traditional real estate and includes a professional approach to the wants and needs of his clients. He reiterates that it is the communication between his firm and their clients that help them to successfully sell homes and says that anyone in the Sacramento area or surrounding areas that is considering selling their home should contact the firm to learn more.
