

Ontario's Richmond Hill Dental Clinic Achieves Invisalign Certification

November 19, 2015

November 19, 2015 -
Brace Your Smile, a dental clinic in Richmond Hill, ON, Canada, are proud to announce that they are now certified to offer Invisalign braces to their patients. The clinic has been offering Invisalign in some of their other clinics for some time now, which has allowed them to gain significant experience in how to best apply it. Dr. ALi Shoajaei is now fully qualified to deliver the service as well. When it comes to Invisalign Richmond Hill does not yet have many dentists who are able to fit these braces to patients, so it is expected that the clinic will see a significant influx in customers.

"I am so proud to be one of the first dentists in Richmond Hill to offer Invisalign," says Dr. Ali Shojaei. "These braces have proven to be incredibly popular with patients of all ages, from image conscious teenagers to adults. People want to have a beautiful smile but they do not want to experience the discomfort and unsightliness of braces. This is why Invisalign is such a fantastic option."

Invisalign is quickly becoming the most popular type of brace on the market, together with Damon Braces. However, not everybody is a suitable candidate for either of these braces. When it comes to orthodontics Richmond Hill professionals want to stress that braces may have a cosmetic result, they are actually a

medical tool that helps people to align their teeth, thereby ensuring they can eat and speak better. However, Dr. Shojaei feels most his patients are excellent candidates and he also has other options available for those who are not.

"I can also offer Harmony Braces, for instance," adds Dr. Shojaei. "Most people who cannot use Invisalign find that Harmony is a perfect alternative solution for them. I encourage anyone to contact my clinic for an initial consultation, which will allow us both to discuss whether or not Invisalign is the right choice."

As the clinic is now one of the most extensive in all of the Richmond Hill area, it is likely that they will see a significant increase in staff members as well. Brace Your Smile is ready for this.
