The EMS Agent Program Is Available In Iowa

November 07, 2022

Cleveland, Ohio - November 07, 2022 - PRESSADVANTAGE -
Cleveland, Ohio-based Electronic Merchant Systems (EMS) is pleased to announce that their EMS Agent Program is now available to Merchant Services Agents in Iowa.

Electronic Merchant Systems is a leading merchant services provider that specializes in offering payment processing solutions to businesses, and they have more than 30 years of experience in the industry. Learn more at the following link: https://www.emscorporate.com/merchant-services-iso-agent-program-ia

As EMS explains, ISO Agents can have any experience level, whether they are brand new or industry veterans. Credit Card Processing Agents sell merchant services to merchants, improving the payment processing experience for their customers and increasing customer retention as a result.

EMS states, "If you want to join an Agent Program with a great reputation, the EMS's Agent Program is the best choice for you. We can help you close more deals, increase your residuals, help you get into challenging verticals, and offer you more sponsor banks than other agent programs. For over 30 years, we've been helping credit card processing agents become leaders in their industry, and we look forward to helping you do the same."

The EMS Agent Program is completely invested in supporting each agent, which is vital for anyone who aspires to succeed in this field. EMS works with their agents to offer more opportunities to grow their business. One of the ways they do this is with the industry's fastest merchant approval process.

EMS says, "We know how competitive the payments industry is. That is why we created the 10-minute auto-approval process for our agents. Making the merchant approval process agent friendly allows you to grow your merchant portfolio and increase your residuals. We will continue working to make things easier for our agents to succeed."

The company also provides unrivaled payment processing product solutions. EMS' ISO Agents can offer omni-channel processing solutions for their merchants. They have access to cutting-edge solutions that include Maxxpay Point Of Sale, Total Touch® Point of Sale, and Convenupay, all of which serve to enhance their experience with a number of state-of-the-art features.

There are many more benefits available to ISO Agents who partner with EMS. For instance, EMS agents have access to more sponsor banks than other agent programs, which allows them to close more deals and diversify their merchant portfolio.

The EMS Agent Program also has a Cash Discount Program, which can help merchants improve their bottom line each month and can help EMS agents increase their residual revenue. Additionally, EMS will also help agents become a registered ISO and will cover the expenses for qualified agents.

The representative says, "We designed the EMS Agent program around the needs of our Agents, and we work to make their lives easier and businesses better. The work that we do has helped many Agents across the country already, and we are looking forward to helping the Merchant Services Agents in Iowa."
