

NYC Divorce Attorney Juan Luciano Explains Child Custody in a New York Divorce Process

November 22, 2022

November 22, 2022 -
NYC divorce attorney Juan Luciano (https://divorcelawfirmnyc.com/) releases a new article that discusses the factors to consider when getting a divorce. The lawyer mentions that it is not easy to make the decision to divorce. New York divorce cases can be extremely emotionally difficult and have a major impact on someone's life.

According to the NYC divorce attorney, "Family law and divorce cases in NYC are highly charged and have an emotional impact on everyone involved, no matter how amicable they are. It is often a personal, vulnerable, and painful time. And during it all, you are asked to make important decisions that will affect your family and your financial future.?

The lawyer explains that unnecessary conflict can prove to be counterproductive in many cases. An experienced divorce lawyer will try to minimize conflict to protect the client's well-being and that of their children.

Attorney Juan Luciano mentions that uncontested divorce can be granted if both spouses are able to reach an agreement to end their marriage. An uncontested divorce is a situation where both spouses reach an agreement regarding matters such as child custody and asset distribution.

The article also discusses what a litigated divorce is. When the court must rule in favor of the couple in divorce proceedings, it is called a contested divorce. If a couple is having disputes over marital property, custody, or financial arrangements, an experienced divorce attorney might be necessary.

Attorney Juan Luciano states that custody cases are handled on an individual basis, and the court will consider many factors. These factors include the location of parents and their health, as well as the income of each parent. According to the lawyer, it is important that both parents can work together for the good of the child.

Lastly, the lawyer emphasizes the importance of having a skilled divorce attorney when it comes to matters such as child custody. Having an experienced lawyer may be able to help the client understand their rights and responsibilities in a divorce case, and may be able to help them receive a favorable income.
