Cali Dreamz Real Estate, a business based in Rocklin, CA, has announced that they have made available exclusive listings of houses for sale in Fair Oaks CA. According to them, their goal is to make it easy for people who are looking for a house they can buy in Fair Oaks or those who are researching trends in housing for that particular area. Fair Oaks is one of the best suburbs to live in the Sacramento Area.

Jordan Yarbrough, realtor at Cali Dreamz Real Estate, says, "We are very pleased to be able to help people looking for homes in Fair Oaks. They say that living in Fair Oaks offers residents a suburban feel and most residents own their homes. Fair Oaks' unemployment percentage is below California's state average. The percentage of the population in Fair Oaks with a bachelor's degree or higher is above the state's average. Many young professionals and retirees live in Fair Oaks and residents tend to lean towards the conservative side. The public schools in Fair Oaks are above average. Other advantages of buying a home in Fair Oaks include the mild winters, nearby recreation facilities, and a central location."

Fair Oaks is a suburb of Sacramento and belongs to the Sacramento-Arden-Arcade-Roseville metropolitan statistical area. Found in Fair Oaks is the Veterans Memorial Amphitheater, where certain events often take

place. These include the Fair Oaks Fiesta, the Fair Oaks Theater Festival, and the annual Fair Oaks Chicken Festival. Another place of interest is the town center, known as the Old Fair Oaks Village, which contains the Fair Oaks History Center, which holds items about the history and founding of the suburb.

Fair Oaks residents can be considered as tech savvy because about 86.1 percent of the households there have a broadband Internet subscription for the years 2013 to 2017. Residents of Fair Oaks are also well off as indicated by the median household income of \$75,696, according to a census also for the years 2013 to 2017.

The suburb is number 10 in the 2018 list of the Best Suburbs to Live in the Sacramento Area. Most residents own their homes and the unemployment rate is less than the average for the state of California. Perhaps, this can be explained by the fact that the percentage of residents of Fair Oaks who have at least a bachelor's degree is higher compared to the state's average. Meanwhile, the public schools accessible to people in Fair Oaks are also above average.
