

Dentist In Del Mar Announces Services For The Entire Family

January 19, 2019

January 19, 2019 - PRESSADVANTAGE -

A prominent dentist Del Mar has announced that they are offering services suited for every member of the family. The dental practice states that they have services that range from helping that first baby tooth to poke through to full sets of dentures for the elderly and everything in between.

Elan Weinstein, a representative for the practice says, "At Solana Family Dentistry, our goal is to see our patients smile, no matter their age. We offer services for everyone and every dental issue from a staff of trained and professional, yet friendly and caring dental professionals."

Weinstein states that the practice provides basic dental exams, deep cleaning, teeth whitening and other general services, as well as more complex procedures such as Invisalign braces, and various cosmetic dentistry services. Weinstein states that they have been in practice for many years and says that their experience and long line of smiling, satisfied patients speaks for itself.

"From the simplest to the most complex procedure, we can help with them all," says the spokesperson for the Solana Beach Dentistry practice. "Our procedure list can be seen on our website, and we always

welcome patients to contact us to discuss any issues or ask any questions that they may have.?

The dental practice offers a wealth of information on their website, including a blog where patients can read up on any new practices or procedures that they may be considering. Weinstein states that the website also offers a way for patients to make their initial appointment and has forms that can be downloaded by first time patients to save them time when they arrive. He says that the forms can be downloaded from any computer, filled out and then brought with patients to their first appointment so that staff has all of the information that they need to get started.

Weinstein states that dental treatment for each patient begins with a consultation and a thorough oral examination. He states that during the examination, the dentist can determine any issues that may need to be corrected and get a better idea of the patient's oral health so that a plan for treatment can be presented.

The dental practice offers a wide range of cosmetic procedures, as well as restoration procedures for those who are missing teeth or have other more serious issues than merely needing a teeth cleaning. Weinstein states that they have helped thousands of patients to leave their office with a brilliant smile and says that he hopes that they can do the same for other patients in the future.

The practice serves customers in Del Mar and the surrounding areas, and Weinstein says that they work with a number of insurance providers. Patients with dental insurance can contact the office to learn more about insurance payment for their dental needs.

Weinstein says that they strive to be a complete family dental practice, and states that their staff is experienced in working with patients of all ages. He says that whether the patient is young and needs an initial dental examination before starting school or an older patient who needs tooth restoration, dentures or implants, the practice can help.

Weinstein states that having one dental practice that works for the entire family helps to lower the stress involved with seeking dental attention. Parents can make their appointments on the same day as their children and everyone in the family can enjoy good oral health. He states that one of the reasons that adults go without dental care is because they find it too much of a burden to travel to numerous practices to get the care that they need. Solana Family Dentistry looks to eliminate this problem by providing services that are suitable for everyone in the family.

Those who are interested in learning more can do so at the practice's official website, which can be accessed at <https://solanabeachdentistry.com/>. Those in need of dental care can contact the practice directly or use their online portal to schedule an appointment.
