Drystar Restoration and Construction LLC Is Offering Water Damage Repairs and Restoration in Phoenix, AZ

February 01, 2023

Mesa, Arizona - February 01, 2023 -
Established in 2012, Drystar has built up a reputation for providing the best water damage repairs Phoenix has to offer. The company, which is rated at an A+ by the Better Business Bureau, won the Super Service Award from Angie?s List in 2018. Phoenix homeowners and business owners whose properties are flooded can contact Drystar 24 hours a day, 7 days a week, and rely on its technicians to be on their way to the site within 90 minutes or less. The company offers customers free estimates and works with their insurance provider to get the costs of the repairs covered through their policy.

The company?s owner, Richard Appel talks about Drystar?s emphasis on speedy service delivery by saying, ?Water damage is extremely destructive. The elemental force can quickly seep into the walls, floorboards, roofing materials, basement, furniture, upholstery, and more to weaken and even threaten the integrity of your home or commercial property. If you have a sewage leak, the accompanying flooding can also be a health hazard. Fighting water damage requires swift methodical action. When you give us a call, you can trust our experts to prioritize your case and move with speed. Since time is of the essence, our technicians will make every moment count and fix your emergency water damage problem before it wreaks any more havoc on your property. We also handle all the rebuilding so that your home is fully restored, just as it was before,

without having to seek out multiple contractors. So, our end-to-end extraction, drying, cleaning, and restoration services are everything you need.?

Drystar Restoration has a 6-step restoration process that includes the initial contact, thorough assessment of the extent of the damage, extracting the pooled water using powerful pumps, using industrial-grade drying equipment to reduce the chance of mold damage, cleaning, odor removal, and deodorization, and finally, restoration, which includes both major reconstructions as well as minor repairs.

Drystar Restoration and Construction LLC has received a lot of praise for the reliability and speed of its water damage restoration services from customers in its service area. On its Google Business Profile, Drystar Restoration has an impressive rating of 4.5 out of 5.0 from over 90 reviews.

One of the latest 5-star testimonials says, ?I?m currently right in the middle of dealing with a water leak and mold issue in my bathroom. My plumber recommended Drystar, and so far, they have been amazing. Miguel and Bonita came out within 20-30 minutes of my initial call to Drystar for help. Everyone since then has been incredibly professional. I want to give a special thanks to Miguel and Bonita right now. I had an electrical issue tonight after normal business hours, and both of them were at my house within 15 min of my phone call to fix it. They solved the problem in no time at all. This company is awesome, and I have no doubt I will continue to receive great service for the remainder of my restoration.?

Drystar Restoration also offers emergency asbestos removal in Phoenix and nearby areas. This service can be a potential lifesaver for residents living in properties built before 1980 when the use of asbestos in building materials was at its peak. Since it was first discovered that asbestos fibers can cause inflammation, scarring, and even be carcinogenic for the body, there have been concerted efforts across the country to remove such materials and surfaces from existing buildings. Drystar Restoration is certified to evaluate and remove dangerous asbestos-containing material from homes that pose a risk to those living in them.

Drystar Restoration offers 24-hour water damage restoration services in Phoenix, Mesa, Chandler, Gilbert, Tempe, Scottsdale, Tucson, Casa Grande, and the surrounding cities. Its full range of services includes water damage restoration, fire damage restoration, mold remediation, asbestos abatement, storm repair, sewage cleanup, cleaning, flooring, and remodeling.
