

Inspired Grill Instruments Receives Rave Reviews On New Heat Resistant Gloves

July 23, 2015

July 23, 2015 - PRESSADVANTAGE -

Inspired Grill Instruments has recently released their heat resistant gloves on Amazon on <http://www.amazon.com/dp/B00SFWWW0G>. Since their original release, the product has been flying off the shelves and it has quickly become a top rated product. To date, it has received over 240 positive, five star reviews.

K.P. Malone, from Inspired Grill Instruments, says, "We fully believed in the quality of our product, but to receive so many positive reviews so quickly is just wonderful. It really shows that we have done things right."

The gloves are fully heat resistant and water proof, being made from silicone. They can resist temperatures of up to 400 F. The one size fits most gloves are non slippery, being made of a strong material for a safe and reliable grip. It is also released with a free eBook that includes delicious BBQ recipes.

Some of the positive reviews, such as the one on http://www.amazon.com/review/R1UECPTQGURQLE/ref=cm_cr_rdp_perm?ie=UTF8&ASIN=B00SFWWW0G, include videos that show how the product is best used. The write up is equally positive. "These

gloves rock. They are absolutely adorable and fit rather well," says Cia. "I don't have the smallest hand, and have long fingers (and nails), so the fact that these gloves didn't feel tight or uncomfortable is pretty impressive in my eyes. I am in the kitchen a LOT and have actually tested out the bbq gloves. I was nervous at first but sure enough, the heat never made its way to my skin."

Other reviewers, including the one that can be seen on http://www.amazon.com/review/RGBOJYZ2EMP5/ref=cm_cr_rdp_perm?ie=UTF8&ASIN=B00SFWWW0G, speak of how impressed they are with the silicone material, which is one of the things that truly sets these gloves apart. "If you have not tried silicone oven mitts, I highly recommend them," says Kristy Stout. "They are a serious staple in my kitchen now. I won't use anything else to handle a hot dish."

The gloves continue to sell very quickly and it is hoped further positive reviews will be left. The company believes in the quality of their product so much that they even offer a full one year money back guarantee. To date, however, nobody has had to use that warranty.
