Columbus Tree Service Experts Offer Free Tree Care Services to Support Local Community Gardens and Urban Farms

March 01, 2023

March 01, 2023 - PRESSADVANTAGE -
Columbus, OH ? Today, Columbus Tree Service Experts provided one-time free tree care services to several community gardens and urban farms in the Greater Columbus area. This initiative is a part of the company?s commitment to supporting environmental efforts in their hometown.

Columbus Tree Services Experts was founded in 1995 and is a leader in providing environmentally responsible tree care services, from pruning to planting to removal. This year, they wanted to take it further and give back directly to the local community by offering free services for several urban farms and Community Gardens. This includes providing expert trimming services to trees that shade these gardens and trimming branches away from power lines.

The initiative has been well-received by the local community, who benefit from this generous service provided by Columbus Tree Service Experts. Those looking to help their communities can easily find ways to make an

impact through their efforts or donations of time and money. As Columbus Tree Service Experts proudly state, ?Making the environment better is everyone?s responsibility!?

The free tree care services included trimming and pruning, fertilization, mulching, and plant health assessments. The service was offered to all trees, including fruit, nut, and ornamental trees.

All services were supervised and performed by certified arborists with extensive experience in tree care and maintenance. Information on how Columbus Tree Service Experts ensures its team is experienced and qualified to handle all types of trees can be gleaned here: https://www.pressadvantage.com/story/58348-columbus-tree-service-experts-implements-strict-training-and-certification-program-to-meet-the-highe.

Michael Johnson, CEO of Columbus Tree Service Experts, commented on the initiative, ?We are proud to offer free tree care services to our local community gardens and urban farms. We believe that these initiatives will help promote the growth of sustainable food systems in our area and enable us to impact the environment positively.?

He continued, ?At Columbus Tree Service Experts, we understand how important it is for us to give back to our community and provide resources that will benefit the people living here. We want to ensure everyone has access to quality tree care services while supporting the environment.?

In addition to providing free services to community gardens and urban farms, the company is committed to using eco-friendly practices whenever possible. They use biodegradable materials and minimize water waste during their operations. Their goal is to reduce their carbon footprint while still providing professional tree care services at an affordable price.

The Columbus Tree Service Experts team believes that making high-quality tree services accessible to everyone is one of the best steps for improving the city?s urban canopy health. In the future, they plan to continue offering free services to local non-profits and organizations to give back and promote sustainability.
