Littleware Containers Releases Snack Cups

December 03, 2015

December 03, 2015 -
Eagle Mountain, Utah business Littleware Containers has only recently released a set of four snack cups, but within days of the launch, the product has received a tremendous amount of positive reviews. The company is incredibly pleased about the positive reception of their latest product.

Erin Downs from Littleware Containers says: "When we released our new snack pots, we knew that they would be appreciated. They are designed to be fun, efficient, easy to use, and completely safe, even for little children. However, the fact that they received this much positive praise in such a short period of time is more than even we could have expected."

The various reviews that have been left to date all mention the fact that the snack cups are easy to use. This is thanks to the flip top lids, which are a lot of fun to use, particularly for young people. For parents and adults, it is good to know that the threaded top prevents spills.

Furthermore, the cups come with an easy to use handle that is suitable for little hands. "I love these snack cups," says Adriane. "They are perfect. We take our snacks very serious in our house and this is my favorite snack cup. Perfect size, perfect shape, and most importantly, my kids love them."

Another thing that is clearly appreciated about the snack cups is that they come with yellow and green lids. This makes them a lot of fun for young children, who are automatically attracted by the fun and funky colors. And aside from children loving the cups, adults do as well. They are incredibly appreciative of the effectiveness and safety of the cups, and also about the fact that they are fully made in the USA. This means that purchasing the cups supports the local economy as well.

"All our products are 100% made in the USA," adds Erin Downs. "We want to deliver products that help improve the health of future generations, while at the same time improving the livelihood of the people of today."

Littleware Containers is known for its baby food storage products. These snack cups are equally suitable for all ages, however.
