

RW Canine Retreat, a Henrietta Dog Boarding and Training Center, Installs K9Grass® with Forever Lawn

February 19, 2019

February 19, 2019 - PRESSADVANTAGE -

Henrietta, Texas ? RW Canine Retreat is a clean, secure facility secluded on 100 acres of pure fun for canines and their owners located an hour north of Dallas/Ft Worth near Henrietta, Texas. The top of the line facility offers the ultimate retreat for loyal canine companions and is a dog boarding and training center specializing in customized training programs meant to meet needs of each specific dog for their improved development and abilities.

RW Canine Retreat offers programs for any age dog ranging from brand new puppies to unruly adolescents or even newly adopted adult dogs. They will help to train dogs using positive, rewards-based training methods and aim to maintain a friendly, family-oriented environment for both human and canine clients alike. Owner Georgeanne Wimberley?s passion for animals shows in her state-of-the-art facility that was custom constructed with beloved pets? comfort and happiness in mind. RW Canine Retreat is not the traditional boarding facility. Often, traditional kennels fall short of what today?s owners want for their dogs and what the dog needs in order to keep them healthy, content and stimulated when settling in to new surroundings. From

the moment guests arrive, it is evident they are entering a special place that takes into account everything a dog could ask for as well as top notch amenities creating a place where pets can come and enjoy a peaceful and relaxing escape.

RW Canine Retreat recently installed K9Grass® from Forever Lawn on two of their large playground areas, allowing for lots of clean and safe play time. K9Grass® is an artificial grass that is designed specifically for dogs using exclusive flow-through backing, short dense blades, and antimicrobial protection. By installing this grass in their playground areas, RW Canine Retreat now offers easy to maintain, beautifully realistic, antimicrobial protection that will in turn create a much cleaner, safer, and better smelling environment for both dogs and their owners while they complete their customized training programs.

The owner, Georgeanne Wimberley, says, "I was looking for the best synthetic grass around for my canine clients and their owners. I wanted to say goodbye to the cold concrete, gravel, mulch, muddy yards and dirty paws. We are known for our cleanliness, some clients say you can eat off our floors, well, I wanted that to be the same for our outside yards of our facility. It's safer, cleaner-smelling environment for our sweet canine friends with maximum drainage and durability. K9Grass® is the artificial grass designed specifically for dogs. With its exclusive flow-through backing, short dense blade structure, and antimicrobial protection. K9Grass® was the solution I had been looking for."

RW Canine Retreat is very exclusive and limits the number of boarding availabilities to allow for lots of one on one interaction, because at the end of the day, owners should truly be able to relax while they are away, knowing that their fur baby is getting lots of love, making new friends and playing with old ones from past visits. RW Canine Retreat also offers Spring Break vacation opportunities, graduation plans, summer vacations, and more that readers can learn more about by visiting their website at <http://www.rwcanineretreat.com/>.
