E Dental Perth Gets Another Five Star Review

March 28, 2023

March 28, 2023 - PRESSADVANTAGE -
eDental Perth, a dental clinic in Perth, WA, Australia, takes pride in announcing they have received another five star review. Currently, they have 400 reviews on Google and an overall rating of 4.7 out of 5 stars. The practice offers a wide range of dental services, ranging from cosmetic dentistry to dental implants. They also offer dental crowns, general and family dentistry, emergency dentistry, root canals, and wisdom tooth extraction. This dental practice is located in Riverdale where there is a lot of free, off street parking for all of their patients.

In the above-mentioned review, Katelyn D. gave them a five star rating and said, ?My 4 year old son had an accident at home where he knocked his baby tooth all the way forward, I called eDental, they took him in straight away and seen to within 5 minutes, the dentist and the dental assistants were absolutely amazing, I am so thankful for their help. I will be100% recommending eDental.?

Kaitlin Hampel from eDental Perth says, ?It always makes us feel excited and proud whenever we receive a five star review. This is because it means we are on the right track with regards to our goal of providing first-class service always. Rest assured that we will continue to do so. We encourage our patients to always

provide us with feedback, whether good or bad, as it guides as in our day-to-day goals.?

They offer cosmetic dentistry to provide patients the smile they have always wanted. This is vital because having missing and crooked teeth, chips, cracks, and discoloured teeth can ruin a person?s smile and self-esteem. They can provide dentures, dental crowns, bridges, and even mouthguards to protect against teeth grinding. They also offer Invisalign treatment, dental veneers, dental implants, and smile design.

For dental emergencies, such as a knocked-out tooth, chipped or broken tooth, and toothaches, their dentist in Perth is always ready to provide emergency dentistry. Those who have an emergency dental requirement can simply call them on the phone. They always reserve slots for emergency cases, which means patients will likely find an available emergency dentist at eDental Perth to attend to their needs as quickly as possible.

They also offer root canals for patients who have a tooth damaged by trauma, decay or periodontal disease. Those who are suffering from an acute toothache may often find that this can be resolved with their first root canal treatment. There are a number of dental ailments that can be remedied through a root canal. These include: recurrent decay under a dental crown, filling, or veneer; deep decay; trauma; periodontal or gum disease; tooth/ enamel wear; and prior extensive dental work on a single tooth.

They also offer general dentistry services for the whole family. The most typical general dentistry service they provide is the cleaning, scaling, and polishing of teeth. They can also provide oral hygiene treatment such as fluoride treatment. They can also provide chipped tooth management. eDental Perth also offers a range of dental x-ray options, whether it is part of a normal dental treatment plan or it is needed for a particular treatment. They also provide treatment plants for gum disease or bad breath.

Started in 2018, eDental Perth is a dental practice strategically located in Rivervale, WA, where it is only 2 minutes away from Crown Perth and serves the Perth metropolitan area. The clinic has a team of experienced, skilled, qualified, and friendly staff who are ready to fully understand the patient?s concerns and expectations. By applying a top down approach, the dentists at eDental Perth always make sure their patient?s needs are prioritised and that the dental treatment is provided with a gentle and caring attitude. Before starting any dental treatment, they will always carefully review the patient?s medical history, goals, and concerns.

Those who are searching for a reliable Perth dentist can check out the eDental Perth website or contact them on the telephone or through email. They are open from 8:00am to 8:00pm from Monday to Sunday.
