

Contractors Asphalt Is Offering Asphalt Repair Services in Austin and San Antonio

May 16, 2023

May 16, 2023 -
Austin sealcoating contractor Contractors Asphalt is offering a range of asphalt repair services to the residents of Central Texas.

Asphalt wears down with time due to several factors such as inclement weather, vehicle leakages, and even the frequent use of the road or paved area by heavy vehicles such as trucks. Regardless of the reason for the deterioration, it is recommended to fix the holes, cracks, or patches in the asphalt as quickly as possible. Otherwise, property owners run the risk of having to perform even more expensive and time-consuming repairs further down the road.

?Here?s the hard truth about asphalt,? says the spokesperson for Contractors Asphalt. ?No matter how high quality the materials you used and how precisely they were applied, it just cannot last forever. Eventually, you will have to reapply or resurface it. The only thing under your control is who you trust to perform your repairs as it will determine just how long you go before needing it again. Here at Contractors Asphalt, our experts

have over 75 years of combined experience to ensure that your asphalt repair project is completed within budget and to the highest standards of quality and polish.?

Contractors Asphalt offers a range of asphalt repair services including pothole repair, crack repair, and skin patching. Pothole repair can help businesses and residential property owners avoid damage to their vehicles or pedestrian injuries caused by accidents. Crack repair is a relatively inexpensive way to prevent fluids from seeping down into the asphalt, weakening it, eroding it, and widening the crack until it damages an even larger area. Skin patching remedies dips or depressions in the asphalt by applying a thin layer to smooth it out and create an even surface.

?We understand just how important it is for you to have a smooth and durable asphalt surface on your property,? says the spokesperson. ?Our trained and experienced contractors work quickly and efficiently to ensure that you don?t lose a lot of time due to the repairs. We focus on clear communication throughout the process with regular updates and an honest diagnosis of the repairs you need. Most importantly, we know how to offer solutions that fit your budget. Give us a call today for a free comprehensive estimate.?

Contractors Asphalt has been serving the residents of Austin, San Antonio, Bastrop, Burnet, San Marcos, New Braunfels, Killeen, Georgetown, Kyle, Cedar Park, Round Rock, Temple, Marble Falls, Waco, and nearby areas since 1994. The company can meet the asphalt and concrete needs for all kinds of residential and commercial properties including apartments, churches, condos, restaurants, strip centers, schools, municipals, cities, warehouses, new construction, and more.

The range of services offered by Contractors Asphalt includes asphalt repair, asphalt sealcoating, asphalt resurfacing, asphalt pothole repair, asphalt paving, asphalt parking lot repair and maintenance, asphalt driveway installation and repair, concrete wheel stops/car stops, concrete crack filling, concrete pothole repair, concrete parking lot repair and maintenance, and more.

Over the years, the company has received several 5-star reviews praising the professionalism of its crew members, helpful customer service, timely project completion, workmanship, and affordable pricing. One reviewer says, ?There's a reason these guys have 5 stars. I've had car stops put in twice at different locations. They have the best prices in Austin and will do it fast.?

Another 5-star review says, ?Very good experience from an honest business, earned a lot of respect from me. Brett and his crew paved my 3500 sq. ft. driveway and left it looking beautiful. But the asphalt didn't cure like it was supposed to (it was determined to be something with the mix from the asphalt supplier) and was soft weeks after they paved it. Brett came to inspect it multiple times and was very thorough about diagnosing the problem. Brett didn't hesitate to take full control of the situation and make the whole situation right for us with a solution.?
