

## **Weight Loss Product PhenObestin 37.5 Releases To The US Market**

*July 16, 2015*

July 16, 2015 - PRESSADVANTAGE -

PhenObestin.com, a weight loss company in Grandville, MI, are proud to announce that they have released their PhenObestin 37.5 product. PhenObestin 37.5 has been popular across various countries since 2009 and the American public has been waiting for their chance to try it as well. Their chance has now finally arrived.

"Our product has helped over 100,000 people loose significant weight since 2009," says Georgiy Kharchenko from PhenObestin.com. "Our customers are from all over the world, including Canada, the UK, France, the Netherlands, New Zealand and Australia. We are so popular because we are so good. PhenObestin simply works."

The product is made up of some of the market's most potent ingredients. Full PhenObestin 37.5 Extra Strength information is available from their website. PhenObestin 37.5 essentially mimics Phentermine Hydrochloride but with a vital difference. Phentermine Hydrochloride has an amphetamine-like effect, so it is a Schedule IV controlled substance. This means that it is only available on prescription, as an FDA-approved appetite suppressant. On the other hand, PhenObestin 37.5 does not contain HCl, which means that it does

not have the amphetamine-like effects and is not a controlled substance. It also means that people can use it for longer than eight months without becoming addicted, and that they can return to it at regular intervals during their lives.

The company have also made sure they have a guarantee on their product. They want to put themselves apart from the various companies that claim to deliver a similar product but that are actually counterfeit and, at times, potentially dangerous. This is why they have included a lifetime satisfaction guarantee with their product.

"We basically offer an insurance policy," adds Georgiy Kharchenko. "Either you are 100% satisfied, or we pay you back. And it doesn't matter whether you come to that conclusion two days from now or 900 days from now, the warranty will stand."

Click here to visit PhenObestin site to receive more information on the important details of this product, as well as details instructions and warranty information. You may also visit the PhenObestin 37.5 main blog for educational articles on weight loss.
