

Old World Brick Paving Announces Updated Website Reviews

April 12, 2019

April 12, 2019 - PRESSADVANTAGE -

Old World Brick Paving in River Grover, Illinois, has announced that they have received a number of new feedback letters from their customers. This feedback can now be seen on the company's official website.

A representative for the company says, "We are always pleased to hear from our customers. Our goal is to provide customers with the very best in brick paving hardscapes, whether it be for a backyard patio, a driveway or an outdoor kitchen. Hearing from our customers lets us know that we are doing our jobs right."

The company states that all of their new feedback is positive. Customers rave about the quality that they receive, the affordable cost of the services, and the overall professionalism of the company.

One customer says, "Frank and his team were very professional when they installed our patio, graded and sodded our front, side and backyards, and ensured that we were satisfied. Our neighbor was so impressed with their work, he hired Old World for work at their home."

The company states that a number of additional customer reviews can be seen on their website. Old World

provides a wide range of services for those who are looking to improve the quality and appeal for their outdoor living spaces. The company representative states that not only does this provide an aesthetic appeal for homeowners, but it can help to raise property values, as well.

“A home that has a nice outdoor living space is going to command a much higher price on the market than one that does not,” says the company spokesperson. “We can come in and speak with the homeowner to help determine the best route for their brick paving and give them an outdoor area that will certainly raise the overall value of their property.”

Old World is a family owned and operated business and has been serving customers in the area since 1993. The company has earned multiple 5 star ratings on websites like the Better Business Bureau, Google, Home Advisor and Yelp. They have, over the years, received a number of certificates and awards for their work as well, and they have worked on a wide range of notable clients such as the Oak Park Country Club, Metra Train Station, and the Midway Airport.

Old World provides their services to a wide range of locations, including Wilmette IL and the surrounding areas. A complete list of the cities that they service can be seen on the company’s website. The website also offers customer feedback, as well as a gallery of their work, featuring before and after pictures that show how they changed the outdoor living spaces for their customers.

The company adds that they provide permeable brick paving services including cleaning, maintenance, and repair and states that they have several years of experience in handling permeable brick pavers for driveways, pool decks, patios, walkways and other structures.

“We have handled a number of notable projects that people have likely seen in person in and around Chicagoland,” says the company representative. “And we look forward to helping home and business owners all over Illinois to meet their outdoor living area needs.”

Those who are interested in learning more about the specific services that Old World provides or in reading through their customer feedback can visit them on their website. The website offers a before and after gallery as well as tips for hiring a contractor and other information related to brick paving. A contact form allows customers to request a quote for services.

The company states that although they offer a frequently asked questions page on their website, they are always happy to answer any additional questions. Contact can be made through the contact form or directly by phone or email. Those interested in learning more about the company’s service areas will find the complete list of areas, as well as a map of their location on the website, as well.
