

Beside NHS, we also offer private treatments such as teeth whitening, Invisalign, Dental Implants and much more.

Best NHS Dentists In Coventry Are Now Open To Register New Patients

April 18, 2019

COVENTRY, UK - April 18, 2019 - PRESSADVANTAGE -

Coventry, United Kingdom based Light Lane Dental Practice is pleased to announce that they are open to accept and register new NHS patients. Located opposite Barrs Hill School, at <http://goo.gl/maps/5doCBkE8mmn>, Light Lane Dental Practice has been providing dental care to the Coventry community for over forty years. Their team is composed of friendly, qualified dentists dedicated to meeting the needs of every patient that walks through their doors and making each visit for their patients as comfortable as possible.

"We are one of the longest serving dental practices in Coventry providing family dental care for over 40 years. We treat every patient as a special guest, proper patient care is paramount, and we aim to provide you with only the best dental care. If you're looking for a friendly, professional dental practice that will treat your whole family, then look no further than the Light Lane Dental Practice," asserts the practice manageress at this dental clinic.

Residents of Coventry will find a number of different services available to them at Light Lane Dental. Regular dental check-ups are an important part of basic dental care and hygiene and help people detect dental issues early, which can then be addressed before they become major problems. Over the decades, Light Lane Dental has performed thousands of dental check-ups, and the current residents of Coventry can be rest assured that they are in good hands every time they visit Light Lane Dental for an appointment.

Local residents might also be interested to learn that Light Lane Dental offers professional cleaning services. The dental office has an experienced hygienist on hand at all times who is able to run a full dental cleaning when required by a patient. Removing plaque and tartar is an important part of dental hygiene and, even if an individual believes themselves to be free of plaque, they can always benefit from a thorough cleaning.

Those more concerned with fixing cosmetic issues may approach Light Lane Dental to avail themselves of the clinic's relevant treatments. People whose teeth have sustained serious damage to their structure that cannot be fixed or disguised with dental fillings are usually given dental crowns (which are essentially tooth caps to cover the remaining tooth), or bridges which secure missing teeth by anchoring them to neighbouring teeth. The clinic is also able to offer amalgam as well as tooth coloured fillings. All three solutions coexist to help patients rebuild their smile.

Sometimes, a patient may suffer a severe infection, a seriously damaged tooth, or a lost or damaged dental implant, but not feel that this merits a visit to the dentist. What may appear to be a minor problem, however, can actually be an emergency, and patients are encouraged to contact Light Lane should they experience toothache, a broken tooth, lose a tooth filling or dental crown, break their dental crown or bridge, develop a gum infection or bleeding gums, develop an abscess in the gums, or experience pain in their wisdom teeth. For more information on Light Lane Dental, visit their website at <http://lightlanedental.co.uk>.

Light Lane Dental has, over the years, sent many happy patients on their way with healthy smiles. One happy patient said, "For someone like me who is scared of dentists, I must say a massive "Thank You" to Hardip and his assistant, who are excellent and very good at their work. After 30 years, I'm not scared anymore. Well done, and thank you."

Another review states, "Light lane is a fantastic dental surgery, and I would highly recommend any of my family and friends to go there. The reception staff are all very helpful, friendly, and professional. My daughter sees Dr. Chauhan at the practice, and I would highly recommend anyone to go to see him and his nurse as they both created a friendly, welcoming, and happy environment for my daughter to walk into. They made sure she was confident in having her check-up and that she would always want to go back each and every time. So, thank you for all that work at Light Lane Dental Practice."

For reliable dental services from one of the oldest dental practices in Coventry, contact Sharon Ashton of

Light Lane Dental Practice. The clinic is known to comply with the standards set out by the Care Quality Commission and promises to provide service of the highest quality. Interested parties may also connect with them via the clinic's social media platforms.
